INDEX TO DEPARTMENTS.

	Page No.
Asparagus Plants	4
Vegetable Seeds	4 to 22
Vegetable Plants	23
Flower Plants, Annual	23
Field Seeds	24 and 25
Flower Seeds	26 to 36
Gladiclus and Cannas	36
Dahlias	38 to 51
Perennial Plants	52 to 59
Peonies	57
Roses	60 to 62
Flowering Shrubs and Vines	62 and 63
Bedding Plants, Potted Plants	63 and 64
Fruit Trees, Berry Plants, Rhubarb	64 to 66

Varieties Marked with star are Oregon Grown Seeds.

SAVE MONEY BY PARCEL POST. READ THIS.

Seeds, plants and bulbs are now covered by the commercial rates, except that all under eight ounces are charged one cent for each two ounces or fraction.

In our desire to give patrons full advantage of parcel post we have made a new departure and now give our customers who so wish the privilege of **ordering seeds by parcel post at freight prices**, plus the actual postage, figured on one-pound lots and up. To illustrate our meaning, suppose Mr. Jones of Albany orders 10 pounds of corn seed by mail and our freight rate is 30c per lb. This is the second zone, or 5c for the first one pound and 1c for each additional pound. He should, therefore, remit us \$3.00 for the corn and 14c postage.

This may be applied to any zone according to the rates. In case, however, that our customers are not sure of the rate and zone, they may send what is certain to cover the postage and we will return stamps for any overrun.

In the latter case mark your order "Postage Allowance" with amount inclosed.

This offer applies only to 1-pound or more and will be made only where specified by the customer.

HOW TO ORDER.

Order early as there is a heavy demand on some stock and it may be exhausted. **Remittance must accompany order** by money order, express order or bank draft. Stamps will be accepted to the amount of \$1.00 but above this we would prefer money orders, etc.

We urge our customers to remit by money order on amounts less than \$5.00 if convenient to do so.

Prices in this catalog by **Express or Freight** do not cover shipping expenses. E. or F. indicates express or freight.

All prices up to and including one pound include shipping expenses and for more only when indicated.

Be sure to give shipping instructions and write your name and address plainly on your order sheet.

MARKET GARDENS.

Who buy in large quantities should send us their list for prices. We have a large trade with market gardeners.

PARCEL POST RATES.

Weight Limit, to second zone inclusive 70 lbs., above that 50 lbs.

Size Limit, not to exceed 84 inches, found by adding length and girth combined.

Up to 8 oz., 1 cent for each two ounces or fraction.

Local Zone, 5c for first pound or fraction over 8 oz., add 1 cent for each 2 lbs. or fraction.

1st Zone, 5c for first pound or fraction, add 1 cent for each additional pound or fraction.

2d Zone, 5c for first pound or fraction, add 1 cent for each additional pound or fraction.

3rd Zone, 6c for first pound or fraction, add 2 cents for each additional pound or fraction.

4th Zone, 7c for first pound or fraction, add 4 cents for each additional pound or fraction.

5th Zone, 8c for first pound or fraction, add 6 cents for each additional pound or fraction.

6th Zone, 9c for first pound or fraction, add 8 cents for each additional pound or fraction.

7th Zone, 11c for first pound or fraction, add 10 cents for each additional pound or fraction.

8th Zone, 12c for first pound or fraction, add 12 cents for each additional pound or fraction.

Insurance, 5c for full value up to \$25.00; 10c for \$25.00 to \$50.00.

Returned Goods, main package must not be sealed and communications are barred.

War Tax, 1c on each package costing 25c or fraction in postage.

NINTH ANNUAL CATALOG
GILL BROS. SEED CO.
PORTLAND, OREGON Route 1

PHONE TABOR 2683.

TO REACH FARM

Take Mt. Hood Depot car on Montavilla line to 90th street, thence four blocks East and four North to Farm. Our business is all transacted direct from our farm. Phone Tabor 2683.

By drive take East Glisan to Craig Avenue, then North one-half mile to Barr Road and West one-fourth mile to Farm.

FOREWORD.

Dear Customers and Readers:

Last year was a very trying one for seedsmen in general, for the world's seed supply was very short, making varieties hard to get; however, owing to the fact that we grew the greater part of our own vegetable seed, we were able to supply a more complete list of main varieties than most of other firms.

Seed crops this last season were more bountiful and with a few exceptions, there will be sufficient to go around, but the additional cost of labor, machinery and overhead will compel advances in prices over the normal conditions.

Farmers should beware of getting poor seeds as the tendency of high prices has caused many inexperienced growers to market seed crops, many of which should never be sold at all. Our seed crops had careful attention regardless of high costs of production and will give good results.

Don't forget we grew up in the market gardening business and are applying that knowledge to the seed business. Before buying your seeds, etc., kindly read the following statements. They will give you a better understanding of our methods and responsibility.

OREGON GROWN SEEDS.

Will, on account of their acclimation, give the best results and while we do not contend that all lines of seeds can be grown successfully here, however, there are many that reach perfection in this climate. This is especially noticeable in corn, beans, peas, cabbage, pumpkins, squash, onions and practically all of the root crops. The increase in production from greater vitality and adaptiveness will materially increase your returns, as those who have made comparative trials have readily testified.

Then again, all other things being equal, the fact that we are assisting the development of commercial seed growing in the Northwest should commend us for your patronage.

DO YOU WISH TO RECEIVE OUR CATALOG?

Following up the request of the Government to conserve paper and labor, we have decided on a new policy regarding catalogs, and **next season we will issue a catalog only to those who are our customers.** All who purchase an order, no matter how large or small, are recorded in our mailing list and to these only will we mail our 1920 catalog. However, we will be glad to mail our catalog at any time on request.

PRACTICAL EXPERIENCE.

As market gardeners and the many tests we have made for years, has given us a thorough knowledge of the varieties best suited for our climate, and aside from those varieties which we grow, has enabled us to secure our seed from the best sources. In that respect we differ from the average seed store where the experience is more from a selling standpoint.

OUR CATALOG.

Has been prepared with the desire to have it sensible and free from exaggeration. The cuts used are practically all made from photographs taken from samples grown by ourselves and are reasonable illustrations of the results obtained from our seeds. We are opposed to filling our catalog with a long list of worthless novelties and are confining our list to the fewest possible of the best varieties, and introducing only those new sorts which have some added value over older introductions. Those who receive more than one copy of our catalog will confer a favor by handing it to someone interested.

OUR GUARANTEE.

We guarantee our seed to be true to name and will be responsible to the amount of the purchase price of the article. Germination is so dependent upon weather conditions, the time and manner of planting, which are beyond our control, that we do not guarantee this, other than in a fair and proper test, and under such will be responsible for the purchase price only. Under no conditions do we obligate ourselves for the failure of a crop other than has been set forth above.

APPRECIATION.

We extend to all our customers our thanks for their patronage and wish to express our appreciation to those who have so kindly mentioned our firm to their friends.

Our aim is to give every one a square deal and we hope those who have not yet purchased of us will at least favor us with a trial order.

CHEAP SEEDS.

In no other place does quality count so much as in seeds, and the practice of using cheap seeds is poor economy. The desire upon the part of so many farmers for price cutting is largely responsible for the immense amount of worthless, cheap seed that is being sold throughout the country, and when the average farmer realizes that quality is the first and main consideration in seed buying, his demand will force the production of better seed all along the line.

We are not a cheap seed firm and our aim is not and never will be to sell the cheapest seed. Good seed means careful selection and years of work in breeding up. This cannot be done without added expense. If you would produce the best you must plant from thoroughbred stock and, after all, the difference between the cost of good and cheap seed does not begin to compare with the difference in the crops.

At a time like this when labor costs are such a factor in producing a crop, beware of poor seed; get only the best, for the best is cheaper now measured by results than at any other time in history.

PLANTING THE SEED.

We are fully convinced that much failure in seed germination is due to careless planting, and those inexperienced in garden work are urged to study the culture directions at the heads of the different vegetable lists.

The all too common folly of wet plowing has ruined many crops, for the cloddy, run-together condition of the soil after such work is disastrous to the growth of any plant. Planting too early or in damp, cold ground will never make for success and should be avoided. Too deep or too shallow planting is often the cause of poor germination and the weather conditions should be studied.

OUR DAHLIAS LEAD.

Dahlias are one of our leading specialties and we are now the most extensive growers west of the Mississippi River. We have originated and introduced over thirty new varieties of exceptional merit. Our acclimated bulbs will give 100 per cent better results than Eastern stock. Thousands visited our show gardens last fall, and we wish to extend to all a hearty invitation to visit our farm.

MISTAKES.

Unfortunately, like all other human beings, we are apt to make mistakes, and if an error does occur, we will consider it a favor to be notified at once so that we can rectify the oversight.

If you have a complaint, tell us first. In the rush of Spring business mistakes may happen, but if so, tell us pleasantly about it and be assured of courteous treatment.

SUBSTITUTION

In view of the fact that some kinds of seed are short this year we would suggest that customers give, as much as possible, their permission for us to substitute the nearest variety to the one ordered in case we should be sold out. On items of small importance, or during the planting season when time is precious, we may occasionally send other sorts if out of the ones ordered, but such substitutions may be returned for credit if unsatisfactory to the purchaser.

SCHOOL GARDENS

We wish to encourage the school garden movement and will give a discount on orders placed through any public school.

MR. MARKET GARDENER, SAVE MONEY.

We can save you money if you will order your seeds in the fall of the year. There is a great deal of expense in the seed business, due to the fact that seed must be held from the growing of the crop until seed season. If we could book orders for quantities of this seed during the summer and fall we could make reductions that would be worth while to the buyer. Send in your lists during the summer and fall and we will be pleased to quote you.

VEGETABLE SEED SUBJECT TO CHANGE IN EXTREME CASES.

We expect to be able to maintain the prices quoted in this catalog, but owing to constantly changing conditions disturbing replacement values, we must reserve the right to make advances on such items as might otherwise be sold at a loss.

HELPFUL SUGGESTIONS.

We are always willing to offer any assistance in our power, regarding culture, best varieties for your soil and market, etc. We will also be glad to consider any suggestion you may wish to make to us regarding our catalog, service, seeds, etc.

VEGETABLES.

ARTICHOKE.

Large Green Globe—The green buds are used. Start in hotbeds. Pkt., 15c—oz., \$1.25.

***Jerusalem**—The tubers are used for stock feed. Lb., 15c, postpaid. E. or F., \$2.75 per 100 lbs.

ASPARAGUS.

Set the plants about four inches deep and one to two feet apart in rows four to six feet apart. One-year roots are considered by some the best to plant, although other authorities claim it is best to plant the seed where they are to remain in their permanent bed, thinning them to the proper distance apart. The seed is of slow germination and should be planted early in the spring.

Barr's Mammoth—Very large stalks with close, round heads. Purple-tinted stalks. Pkt., 5c—oz., 15c— $\frac{1}{4}$ lb., 45c.

***Palmetto**—Early and prolific with large shoots, of deep green, slightly tinted with purple at the tips of the stalks. This is the standard sort and most generally planted. Pkt., 5c—oz., 15c— $\frac{1}{4}$ lb., 35c—lb., \$1.15, postpaid.

Columbian Mammoth White—This large stalked strain produces white stalks above the surface. Pkt., 5c—oz., 15c— $\frac{1}{4}$ lb. 45c.

Plants—We offer one-year plants of Barr's Mammoth and Palmetto at 30c per doz.; \$1.00 per 100, postpaid. By E. or F., 75c per 100; \$6.00 per 1000. 2-year roots, 45c doz.; \$1.50 per 100, postpaid. E. or F., \$1.25 per 100; \$8.00 per 1000.

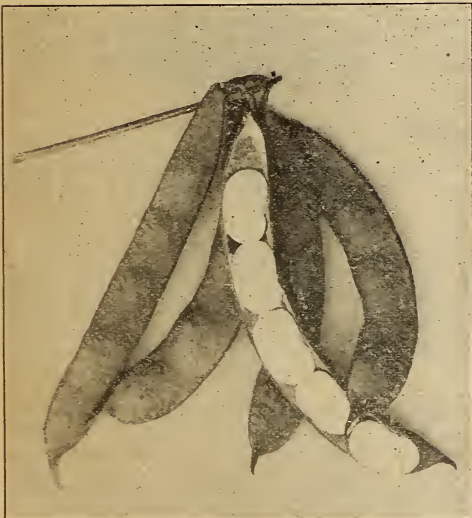

DWARF BEANS.

Plant about May 1st for early beans, as soon as the ground becomes warm, in light loamy soil. Large seeded beans require warmer weather to germinate than small beans. Cover from $1\frac{1}{2}$ to 2 inches deep, according to weather conditions. Never cultivate or hoe beans when the foliage is damp from dew or rains, as it will produce rust.

***Challenge Dwarf Black Wax**—The earliest wax podded bean. Curved pods of medium size, of clear waxy yellow. Cooks very tender and free from strings. A heavy yielder, which we can recommend.

The freest from strings of any yellow bean and equal in quality to Burpee's Stringless Greenpod. Pkt., 15c—lb., 40c, postpaid. By E. or F., lb., 35c—10 lbs., at 33c lb.

***GILL'S RELIABLE**—Twenty-five years ago our family received a few beans of a resident of Portland and it proved such a superior bean that we kept it for a family bean. The strong points in its favor are its exceptionally fine flavor, remarkable productiveness, extreme hardness and splendid appearance. It is a string bean, but there are few, if any, beans that cook more tender. Pods large, round and straight. The seed is pure white, making it a good winter shell bean. We have been unable to find the correct name for this splendid bean and so will call it Gill's Reliable. We have many good reports from the seed we have sent out. It withstands adverse conditions better than most varieties, and is a splendid market or family bean. As a canning bean it has few superiors. Many of our customers prefer this bean to all others, and we give it our personal preference for home canning. Pkt., 15c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 30c lb.

OREGON LIMA BEANS.

FREIGHT RATES AT PARCEL POST

Read on Page 1 how to save money on heavy seeds by purchasing at freight prices, plus actual postage.

DWARF BEANS—Continued

DICKENSON'S YOUNT BEAN.

***DICKENSON'S YOUNT**—We believe this to be the largest of all beans, but notwithstanding its enormous size it has a fine rich flavor when cooked. We have seen the pods over one foot in length and nearly one inch in diameter. We have tested this bean carefully and recommend it to our patrons. It is an enormous yielder and the quality is superb. The pods and seed are light yellow striped and mottled with crimson. This is a good bean for home canning.

The longer we grow this remarkable bean the better we like it. From personal experience we find it a splendid canning bean and we have never yet tried any variety equal to it for salad purposes. The beans can be canned whole and served like asparagus with mayonnaise dressing. Pkt., 20c— $\frac{1}{2}$ lb., 40c—lb., 75c; postpaid. E. or F., lb., 70c.

***True Asparagus**—While the Kentucky Wonder Bean is often known and sold for the Asparagus Bean, this is the true Asparagus variety. The pods are fully as long as the Kentucky Wonder, but more slender and richer in flavor. Seed light drab color.

***Burpee's Stringless Green Pod**—We consider this the best early bush bean we have ever tried. The pods are green, of good length, entirely stringless, tender and brittle and remain so until nearly ripe. This brown-seeded bean is both early and hardy and one of the richest flavored beans of all. It is well adapted to our climate and is a splendid market bean. Pkt., 15c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 30 c lb.

***Dwarf Horticultural or Cranberry**—A rich flavored early bush bean generally used as a green shell bean; vigorous and prolific. Seed and pod striped and blotched with red on white. This class of beans should be more grown, as they are very rich flavored, either green or dry for winter. Pkt., 15c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 30c lb.

***Davis Wax**—Popular with shippers, light yellow pods, seed white. Poor quality unless picked young. It is grown in large quantities for long distance shipments. Exceptionally hardy and also desirable when dry, as the seed are white and nearly as large as White Kidney Beans. Pkt., 15c—lb., 45c; postpaid. E. or F., lb., 35c—10 lbs at 33c lb.

***Refugee, or One Thousand to One**—Valuable for pickling and canning. Pods about 5½ inches long, medium green when in condition to use as snaps. This is a heavy yielding variety and gives good satisfaction. Pkt., 10c—lb., 35c; postpaid. E. or F., lb., 30c—10 lbs. at 28c lb.

***Red Valentine**—Very hardy and early, dwarf green podded sort. Pods curved and cylindrical; very fleshy and tender. This sort is claimed to be very hardy for early planting. Pkt., 15c—lb., 35c; postpaid. E. or F., lb., 30c—10 lbs. at 28c lb.

POLE BEANS.

This is a very desirable variety and should be more planted. Pkt., 15c—lb., 45c; postpaid. E. or F., lb., 35c—10 lbs. at 33c lb.

***Kentucky Wonder**—This is the old standby and is no doubt the heaviest yielder of all beans. Often sold as Asparagus bean. A string bean with long green pods and light brown seeds. It cooks tender and is a good all-around bean. Pkt., 15c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 33c lb.

***Kentucky Wonder Wax**—This grand new pole bean is a wax podded Kentucky Wonder and many think it is of better flavor. We believe it is a more vigorous grower and will yield fully as heavy as the Kentucky Wonder. The pods are a light yellow, extra large, broad and long and cook very tender. We recommend this bean strongly. Comparatively early. Pkt., 15c—lb., 45c; postpaid. E. or F., lb., 35c.

***London Horticultural or Cranberry Pole Bean**—Pods green streaked with red. Excellent used green, shelled or dry. Pkt., 15c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 32c lb.

SHELL BEANS.

***OREGON LIMA**—Those who are fond of a good lima or butter bean will find nothing better than this for our Northwest climate. Last season this bean, planted May 20th, matured ripe seed before frost. The large, plump white beans are excellent shelled green or used as dry beans. We recommend this bean as it is early, hardy and prolific. This bean is fully acclimated, as we have grown it for years. Seed very scarce. Pkt., 20c—lb., 55c; postpaid. E. or F., lb., 50c—10 lbs. at 45c lb.

***Boston Pea or Tree Bean**—Very heavy yielding early variety that is especially adapted for growing in the Northwest. The pure white seeds are a little smaller than Lady Washington and more rounded.

We have seen various sorts sold as White Wonder, Mexican Tree Bean, etc., all of which we believe are the same as this sort. Under various conditions last season it proved the most profitable of any of the small white beans. Seed planted near Portland on June 25 matured thoroughly. The plants made little foliage and no runners, valuable traits when it comes to curing the seed. $\frac{1}{4}$ lb., 15c—lb., 30c; postpaid. E. or F., lb., 25c—10 lbs. at 22c lb.

SELF SEASONING—Crop failed.

White Navy—Small white beans. Heavy yielder and a great market favorite. $\frac{1}{4}$ lb.,

15c—lb., 30c; postpaid. E. or F., lb., 20c—10 lbs. at 17c lb.

WHITE LENTAL BEAN—The seed of this bean is pearly white and about the size of Pearl Vetch. They ripen even and early and produce good yields. For flavor they are far ahead of any other kind we have tried, except the Self Seasoning. This is a grand bean for family use. Pkt., 15c—lb., 35c; postpaid. E. or F., lb., 30c.

Yellow Swedish—An exceptionally heavy yielder which matures early and even. Seed are about the size of Lady Washington and of a rich golden yellow color. They hold together well when cooked making a splendid baking bean of rich flavor. Pkt., 15c—lb., 25c; postpaid. E. or F., lb., 20c—10 lbs. at 18c lb.

***Red Mexican**—We are able to offer this popular red bean in Oregon grown, acclimated seed. Productive, of medium sized red beans which ripen quite even and early. $\frac{1}{4}$ lb., 10c—lb., 25c. By E. or F., 20c lb.—10 lbs. at 18c lb.

***Lady Washington**—We offer seed of this bean that has been grown several seasons in Oregon and is fully acclimated. $\frac{1}{4}$ lb., 15c—lb., 30c; postpaid. E. or F., 25c lb.—10 lbs. at 22c lb.

TABLE BEETS.

Plant in rows 3 feet wide, with drill, April 1st to June 1st. Thin to 3 or 4 inches apart for table beets and 8 to 12 inches for man-gles. For winter beets the later sowing is best.

***EARLY MODEL**—We consider this, after several trials, to be the best all-around table beet for this section. Its extreme earliness, perfect uniform shape and rich coloring throughout make it the best market and garden beet. Entirely free from strings or core. We have grown them for market and they have given fine satisfaction. By careful selection we have developed a strain of this beet that is more uniform than any we have ever seen and our seed of this sort is of our own growing and fully acclimated. While we are compelled to ask more for this seed, it will more than justify you in the quality and quantity of the crop. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c—lb., \$2.50; postpaid. E. or F., lb., \$2.45.

Detroit Dark Red—A fine beet for market or home garden. Roots of medium size, nearly round and very uniform; flesh blood red. This variety is in large demand by the canneries. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.40; postpaid. E. or F., lb., \$1.35.

EARLY MODEL BEETS.

Extra Early Egyptian—The earliest table beet, roots dark red, somewhat flattened in form. Much grown by gardeners for the first spring beets. Pkt., 7½c—oz., 15c—¼ lb., 45c—lb., \$1.50. E. or F., lb., \$1.45.

SUGAR BEET.

Klein Wanzleben—The best variety for making sugar. The government is now furnishing information on home sugar making and this is worthy of consideration in these days of short sugar supplies. If you do not have the desired information, write to your agricultural college or county agent. Pkt., 10c—oz., 15c—¼ lb., 50c—1 lb., \$1.75.

SWISS CHARD.

Lucullus—Grows about two and a half feet high. The heavy stalks are over an inch thick and bare for more than a foot of their length. Should be served as you would asparagus. The leaves make the finest of "greens." Swiss Chard is hardy, easily grown and should be in every garden. Pkt., 10c—oz., 35c—¼ lb., \$1.00.

MANGEL BEETS.

Prices on Mangels uniformly. Pkt., 10c—oz., 15c—¼ lb., 40c; lb. \$1.00; postpaid. E. or F., lb., 95c.

Golden Tankard—A smooth, yellow-fleshed mangel of large size, growing largely above ground, making it easy to harvest. A good yielder.

Mammoth Prize Long Red—The standard red sort, with roots often growing two feet long.

Giant Half Sugar—Cross between a mangel and sugar beet. Flesh white and exceedingly rich.

Giant Intermediate—Heavy cropper, roots yellow, flesh white. Grows nearly one-half out of the ground.

Danish Sludstrup—Long, reddish-yellow, grows well above the ground and is easy to pull. Awarded first-class certificate by the Danish government.

CRESS.

Fine Curled (Pepper Grass)—Grows quickly from seed. Sow thinly in drills. Should be planted at intervals as it runs to seed quickly. Pkt., 7½c—oz., 15c—¼ lb., 40c; postpaid.

Water Cress—Suitable for damp or wet locations. Pkt., 10c—oz., 75c.

GLORY OF ENKHUISEN CABBAGE.

CELERY CABBAGE.

Wong Bok—A delicious new salad vegetable from China which is excellent for salads and cold slaw, and is sometimes used like Swiss Chard. The stems can be used like celery. This vegetable is making good, both for market and home gardens. For best results, plant the seed in August and transplant in September. It can also be planted in early spring. Pkt., 10c—¼ oz., 50c—oz., \$1.50—¼ lb., \$5.00.

BRUSSEL SPROUTS.

Odense Market—We offer Oregon grown seed of this variety raised from selected heads. Many gardeners are finding it profitable to grow sprouts, as they usually bring a good price; then, too, the waste leaves and stalks can be used for feeding stock. This variety is somewhat dwarf, with close round heads. Pkt., 10c—oz., 35c—¼ lb., \$1.00—lb., \$3.50.

CHICORY.

Large Rooted—Chickory does extra well in this climate and is considered by many as an excellent substitute for coffee. Plant like carrots. Pkt., 7½c—oz., 35c; postpaid.

Peas, Corn, Beans and other heavy seed can be purchased cheaper by using our plan on page 1. Read it before ordering.

CABBAGE.

NOTICE—The world's supply of cabbage and cauliflower seed is the shortest ever known and supplies are inadequate to meet the needs of the planters, and we urge customers to purchase only what they actually need for the coming crop. Waste should be avoided and care should be given the planting of the seed so that a full germination can be obtained.

Early varieties should be started in cold frame in January or February, or sowed the fall previous. They can be grown in a hotbed, but this is not so good, as the plants become tender. The earliest cabbage can be grown by sowing seed in August or early September, then transplant to the field in October. For late, plant seed in open ground May 1st, transplant June 15 for fall and July 1st to 20th for winter cabbage, in rows $3\frac{1}{2}$ feet apart, from 26 to 42 inches in the row, according to the richness of the soil and size of variety. Do not crowd them. They do best in a rich, loamy soil, fertilized with barnyard manure of any kind and applying 100 pounds of Utah land plaster to the acre.

***GILL'S OREGON BALL HEAD**—The best main crop cabbage. Hard as a rock and holds its color after cutting better than other cabbage. We have seen it lay for three weeks without turning yellow. This makes it a fine shipper and a fine retail cabbage. The market requires a small, hard-headed cabbage to bring the best sale and this variety meets this demand. It will mature heads in soil where other varieties fail. A cabbage sure to head if given half a show.

After several years' careful selection, we have developed this strain until we believe it to be the best on the market. Through successive winters its superior keeping qualities have been demonstrated. It withstands more freezing weather than any other kind, and last season it withstood the severe attack of aphid better than any other cabbage. We have applied the name Oregon Ball Head to this strain so as to distinguish it more easily. Our seed is limited and we may be compelled to limit large orders. Pkt., 15c—oz., \$1.00— $\frac{1}{4}$ lb., \$3.50—lb., \$12.50; postpaid.

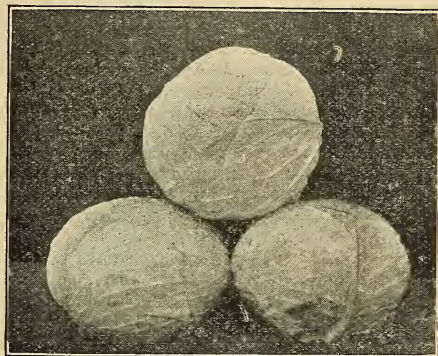

Danish Ball Head—Imported seed from Denmark. This is a good short stemmed strain of this variety and will give good results. Pkt., 10c—oz., \$1.00— $\frac{1}{4}$ lb., \$3.25—lb., \$11.50; postpaid.

Danish Roundhead—Largely grown for market; larger than Danish Ballhead, and somewhat earlier.

Desirable variety for kraut, but will not stand cold weather like Oregon Ball Head. Seed is Danish grown and offered subject to arrival of seed from abroad. Pkt., 10c—oz., \$1.00— $\frac{1}{4}$ lb., \$3.25—lb., \$11.50; postpaid.

***Glory of Enkhuisen**—This splendid cabbage we recommend as the best for a summer or early fall market, as it matures larger heads in hot weather than any sort we have tried. It can also be planted as a first early and will mature good, large heads about the same season as Charleston Wakefield; the heads are quite deep, very tender and brittle and of the finest flavor.

We offer seed of our own growing from carefully selected heads. Pkt., 15c—oz., \$1.00— $\frac{1}{4}$ lb., \$3.50—lb., \$12.00; postpaid.

GILL'S OREGON BALL HEAD.

Early Jersey Wakefield—This old standby still holds front rank as a first early cabbage. Its cone-shaped heads mature very quickly and are unusually sweet and brittle. Our strain of this seed is very true to type and superior to that generally offered. Pkt., 10c—oz., 90c— $\frac{1}{4}$ lb., \$2.85—lb., \$10.00; postpaid.

Large Wakefield, or Charleston—Similar to Jersey Wakefield, but half again as large and 10 days later. Pkt., 10c—oz., 90c— $\frac{1}{4}$ lb., \$3.00—lb., \$10.00; postpaid.

Copenhagen Market—Nearly as early as Early Jersey Wakefield, with good sized, round, hard heads that mature very even. This is now one of the leading cabbage for early markets. Pkt., 15c—oz., \$1.10; postpaid.

***All Head Early**—A second early, flat headed sort, very sure heading and little subject to bursting. Extra fine kraut cabbage.

Very desirable for fall and early winter. Seed scarce. Pkt., 10c—oz., \$1.00— $\frac{1}{4}$ lb., \$3.25—lb., \$11.50; postpaid.

Early Winnigstadt—Later than Jersey Wakefield, good either for summer or winter. Small pointed heads and very sweet. Pkt., 10c—oz., 90c— $\frac{1}{4}$ lb., \$2.85; postpaid.

Perfection Drumhead Savoy—Curly, crinkled leaves; sweet and of fine texture. Pkt., 10c—oz., 75c; postpaid.

Mammoth Rock Red—The best red cabbage; hard heading and large. Fine for cold slaw. Pkt., 10c—oz., 90c; postpaid.

CAULIFLOWER.

For early Cauliflower the same culture as for early cabbage may be used. For late cauliflower, in the description of the varieties offered, the time of planting seed and plants is given. Cauliflower does best in a rich, loamy soil, not a cold, wet location. Plant 2½ to 3½ feet in rows, and 3½ feet between rows. As soon as the heads are large enough to soon be exposed to the light, tie or break the leaves carefully over the head to keep the light away from them. Great care should be used in growing plants of any of the early sorts, that they receive no severe check in their growth, as this will cause them to produce premature heads. Success can be had with the early varieties by planting the seed in the field where they are to grow, even as late as July 10. However, the soil should be thoroughly prepared and several seeds put in a hill, thinning them down to one plant when they have reached transplanting size.

DANISH GIANT DRY WEATHER.

One of the best varieties for home or garden use. The large, heavy, compact, pure white heads are shielded from the weather by tall leaves which twist and coil about the heads, making them almost self-protecting. One drawback to many varieties for market gardeners is the fact that they head out all at once, but this variety heads through a period of two months. It will also stand longer without spreading than most sorts. On account of its resistance to dry weather it is one of the best sorts for early fall purposes. For early fall use, plant the seed about April 15 and transplant about June 15, and for late fall plant seed May 5 and transplant July 10 to 20. Half pkt., 15c—pkt., 25c—¼ oz., \$1.50—oz., \$5.00.

Select Early Snowball—We have an especially good strain of this standard early cauliflower and can recommend it very highly. Half pkt., 15c—pkt., 25c—¼ oz., \$1.40—oz., \$5.00.

Burpee's Best Early—Extra large, solid, perfect heads, maturing early. For October use, plant seed June 10th and transplant July 20th. We have grown this cauliflower several years and recommend it highly. Half pkt., 15c—pkt., 25c—¼ oz., \$2.00.

Gilt Edge—Somewhat similar to Best Early. Immense, solid, pure white heads, of the finest flavor. Splendid market gardeners' sort. Half pkt., 15c—pkt., 25c—¼ oz., \$2.00.

Veitch's Autumn Giant—A hardy, tall-growing cauliflower, making extra large, white heads. The leaves are dark green, and being extra long can easily be broken over the heads to protect them. For years we have grown acres of this cauliflower for the Portland market, and it has always given good satisfaction. Stands handling and shipping better than Early Snowball or Dry Weather. Remarkably vigorous and thrifty. For late cauliflower, season of October, November and December, sow seed in open bed May 1st, transplant July 1st to 15th. Pkt., 15c—¼ oz., 80c—oz., \$1.50—¼ lb., \$5.00.

BROCCOLI OR HARDY CAULIFLOWER.

Mammoth White Broccoli—A late variety, season December to February. Long, tapering, heavy ribbed leaves, inner leaves curling about the head. While considered a broccoli, it is really only a late cauliflower. Brings fancy prices, but the grower must take chances on freezing in the northern part of the state. Pkt. 15c—¼ oz., 50c—oz., \$1.50—¼ lb., \$5.00.

MID-WINTER—This new broccoli has many desirable qualities for the market gardener. It commences to mature about January 1st and continues to head during January and February. The plants are somewhat dwarf, the foliage is long and heavily ribbed, curling close around solid, snow-white heads. When cooked they are very sweet and tender. They will stand considerable cold, but will be injured by a hard freeze, followed by Chinook conditions. The fancy prices obtainable at this season will justify taking the chances on a fairly good planting of this variety. Pkt., 15c—¼ oz., 65c—oz., \$2.00; ¼ lb., \$6.50; postpaid.

ST. VALENTINE BROCCOLI—Large, solid, handsome, white heads of immense size; ready for market in February.

This is the variety which is grown so extensively around Roseburg, Oregon, and shipped to Eastern markets in car lots. They will stand very cold weather and produce large, solid heads well protected by the foliage. Our seed is of high quality.

Our seed has been grown by a large successful grower and only selected heads were used for seed. This selection has been maintained for several reasons and we believe we have one of the best strains offered of this important variety. Pkt., 15c—¼ oz., 50c—oz., \$1.50—¼ lb., \$5.00—1 lb., \$17.50.

Sutton's Late Queen—Exceptionally late, heading in May and June. It will stand quite severe winters and matures so late that it comes just ahead of early cauliflower. It brings good prices. Pkt., 15c—¼ oz., 65c—oz., \$2.00.

CARROTS.

Note our Oregon-grown Carrot Seed, far superior to cheap strains. At freight or express rates deduct 5 cents per pound.

Carrots may be planted from March to June. We prefer to plant from May 10 to 25; they will then miss many of the spring weeds and will stand through the dry season better, making a better quality of roots. Those who plant any quantity should use a good drill, as it lessens the work and gives a more even stand. As soon as they are up use a wheel hoe, following this with a harrow tooth cultivator. Those who have no wheel hoe can run a line of land plaster along the row as soon as the carrots show, then follow with a harrow tooth cultivator. The plaster will enable you to see the rows clearly as well as fertilize. Plant the rows 3 feet wide.

CHANTENAY Oregon Grown—See cut front cover. We consider this the best of table carrots. The roots are very smooth, stump-rooted and thick at tops. The tenderest and sweetest carrot we ever grew. It will grow closer together in the rows and still mature more good-sized carrots than any other. In fact, it is such a good yielder that many plant it for feeding purposes. It does not crack like some varieties. Decidedly the best carrot for market, either for sacking or bunching. The leading sort for canneries and driers. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c—lb., \$2.00.

Chantenay—This seed is not locally grown but is an excellent strain and will be found first class. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25 postpaid.

'Danver's Half Long—The standard stock carrot, but we do not recommend it for table use, as compared to the Chantenay. It is a heavy yielder and is largely planted. Our strain of it is extra good. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25; postpaid.

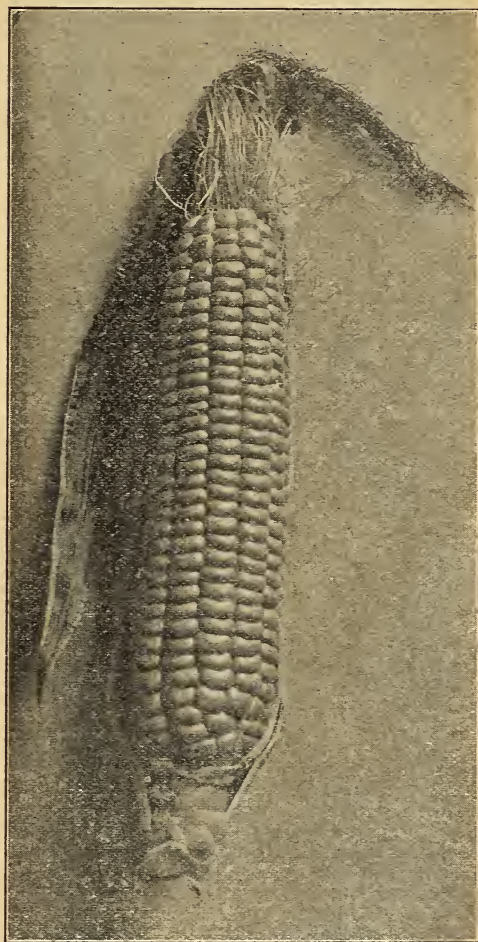

OXHEART—A favorite table sort. Yields heavy crops of smooth short roots. A variety that is easy to harvest. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 50c—1 lb., \$1.50; postpaid.

Long Orange—Suited for deep soils; long red roots for stock feeding. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25; postpaid.

Large White Belgian—Long-rooted white stock carrot; very heavy yielder. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

CELERY.

Golden Self Blanching—French grown. We offer a fine strain of this variety. The thick, solid stalks are a deep creamy yellow and their flavor is unsurpassed. They are unusually free from strings and very solid, tender and brittle. This is the variety most generally grown for the market. Pkt., 15c— $\frac{1}{4}$ oz., 60c—oz., \$1.50— $\frac{1}{4}$ lb., \$5.00.

GILL'S IMPROVED GOLDEN BANTAM.

Golden Self Blanching, American—A splendid strain of this variety grown in the United States. Many market gardeners use this seed with great success. Pkt., 10c— $\frac{1}{4}$ oz., 30c—oz., 75c— $\frac{1}{4}$ lb., \$2.50.

Giant Pascal—Extra large growing sort for fall and winter use and planted very extensively. Blanching yellowish-white in color. Stalk tender and crisp. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c.

White Plume—We offer a good strain of this standard sort. Pkt., 10c—oz., 35c— $\frac{1}{4}$ lb., \$1.00.

CELERIC, Turnip Rooted Celery—Pkt., 10c—oz., 35c.

SWEET CORN.

The first requisite for success with corn is acclimated seed.

The prices paid for first early corn pays the grower to take chances on early planting. For this planting use 4 or 5 seeds per hill and cover one inch deep. Space hills 28 to 36 inches and rows $3\frac{1}{2}$ feet, allowing two stalks to the hill, or as some prefer and we think this gives the best results, plant 20 inches between hills, and thin to one stalk; this gives all the stalks an even show. April 20 to May 1 is generally good season for early corn; of course, depending on the weather. May 15th to 25th is good for the later sorts, as they do not resist damp, cold weather so well as the early sorts.

Corn will not fill well unless the patch planted is blocked out; those planting small quantities should make the patch square, or nearly so. This will permit the pollen to blow down on the silk, fertilizing the ears. Early corn may be planted in succession up to June 25.

***GILL'S PORTLAND MARKET**—Introduced by us eight years ago, this is now the leading early corn and is the largest of all early varieties. Its immense size, together with its large, sweet, plump grains of purest white, on well filled ears, make it a ready seller on any market. The large ears, often a foot in length, mature very even, and owing to the thin husks the marketable ears are easy to detect. The stalks grow strong and vigorous, but rather dwarf. Pkt., 15c; $\frac{1}{2}$ lb., 20c—lb., 35c postpaid. E or F lb. 30c—10 lbs. at 25c lb.

***GILL'S IMPROVED GOLDEN BANTAM**—The sweetest, prettiest and most delicious corn yet introduced. The kernels are of a rich golden-yellow color, which, together with their thin skin, makes them superior for table use. Without question the best corn for its season, either for home garden or market. It is about two weeks later than Portland Market.

We desire to call your attention to the ear shown in the cut, which is twelve-rowed. We have increased the size of this corn more than 75 per cent, thus overcoming an objection often made against it as a market corn. Most of the ears grown from our improved strain will contain 10 to 12 rows of large, plump grains and none of its good qualities have been lost in our selection. We urge a larger planting of this corn by all market gardeners, for even when the market is glutted with white corn this will always sell readily. There is no better corn for home canning or drying, and in fact it is the last word when it comes to quality.

Our improved strain is the largest and best for either home or market gardens. Seed crop short. Pkt., 15c— $\frac{1}{2}$ lb., 25c—lb., 45c; postpaid. E. or F., lb., 40c—10 lbs. at 35c lb.

Howling Mob—A large-eared, vigorous-growing, second early corn. Now considered to be the best corn for late use through this section. It can be planted in succession so as to have corn until frost. Stalks grow 5 to 7 feet, producing 12 to 16 rowed ears, which are of finest flavor. The sweetest flavored of the white corn and one of the best for canning. Pkt., 15c— $\frac{1}{2}$ lb., 25c—lb., 45c; postpaid. E. or F., lb., 40c—10 lbs at 35c lb.

***GILL'S EARLY MARKET**—Last summer this corn was first on the market at Portland and brought 50c per doz., wholesale. Selected for earliness from the Portland Market, this is positively the earliest true sweet corn, being 10 to 14 days earlier than its parent.

While not so large as the Portland Market, the ears are of good size and well filled with large, sweet, plump, white grains, set 12 to 14 rows to the cob. In character of growth it is similar to Portland Market, except it is more dwarf. If you want the first sweet corn in your neighborhood, plant this variety.

To get the best results from this corn the soil should be well fertilized with fresh horse manure. This will prevent it being stunted by cold spring rains and the ears will be larger. Pkt., 15c— $\frac{1}{2}$ lb., 25c—lb., 45c; postpaid. E. or F., lb., 40c—10 lbs. at 35c lb.

Early Evergreen—While this is not a first early corn, this strain is considerably earlier than Stowell's Evergreen, which in general character it resembles. Pkt., 15c— $\frac{1}{2}$ lb., 25c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 30c lb.

Stowell's Evergreen—The popular late sweet corn. Often planted for fodder. We have a true strain of this seed. Pkt., 15c— $\frac{1}{2}$ lb., 25c—lb., 40c; postpaid. E. or F., lb., 35c—10 lbs. at 30c lb.

FIELD CORN.

The growing of field corn has now reached a stage where it is past being an experiment, and with acclimated seeds of any of the good, earlier sorts there is no difficulty to obtain success. We do not and will not handle any but local grown seed of field corn, and our customers may feel sure of getting the right seed. We will handle Eastern seed only upon the request of the purchaser.

Write for prices on quantities.

Minnesota No. 13—An early variety well suited to the Northwest. Grains golden yellow, deep and heavily dented. Tall stalks well suited for ensilage. $\frac{1}{4}$ lb., 10c—lb., 25c; postpaid. E. or F., lb., 20c—10 lbs. at 15c lb.

***Minnesota No. 23**—Medium sized ears; extremely early. White grains, shaded amber. $\frac{1}{4}$ lb., 10c—lb., 25c; postpaid. E. or F., lb., 20c—10 lbs at 15c lb.

***GOLD NUGGET**—The earliest Dent corn we know of for this climate. Golden yellow grains on large, heavy ears. This has proved to be the most desirable variety for dry corn or ensilage, owing to its earliness. $\frac{1}{4}$ lb., 10c—lb., 25c. E. or F., lb., 20c—10 lbs. at 15c lb.

OREGON WHITE DENT—Extra large ears with broad white grains. This variety has been grown in Oregon for several years with fine success and is early enough to reach maturity every season. Pkt. 15c, lb. 30c, E or F lb. 25c, 10 lbs. at 20c lb.

POP CORN.

***White Rice**—The best commercial pop corn. Sharp pointed grains. Our seed is fully acclimated. Pkt., $7\frac{1}{2}$ c— $\frac{1}{4}$ lb., 15c—lb., 35c. E or F, lb., 30c—10 lbs. at 25c lb.

CUCUMBERS.

Plant 4 feet each way in rich, loamy soil. from April 15 to June 1, 8 to 10 seeds to hill; thin to three good vines. Cover seeds one inch deep and press firm.

DAVIS PERFECT—This new cucumber is taking front rank for a garden or slicing cucumber. The most vigorous and thrifty grower we have tried. Produces a heavy yield of uniform, long, dark-green cucumbers. Holds its color good after marketing. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c—lb., \$1.75; postpaid.

Perfection White Spine — The White Spine cucumber has long been a general favorite, but is now listed under so many names as to be confusing to the planter. We offer a good thoroughbred type of this variety, one especially suited for slicing and general use. Pkt., $7\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 50c—lb., \$1.50; postpaid.

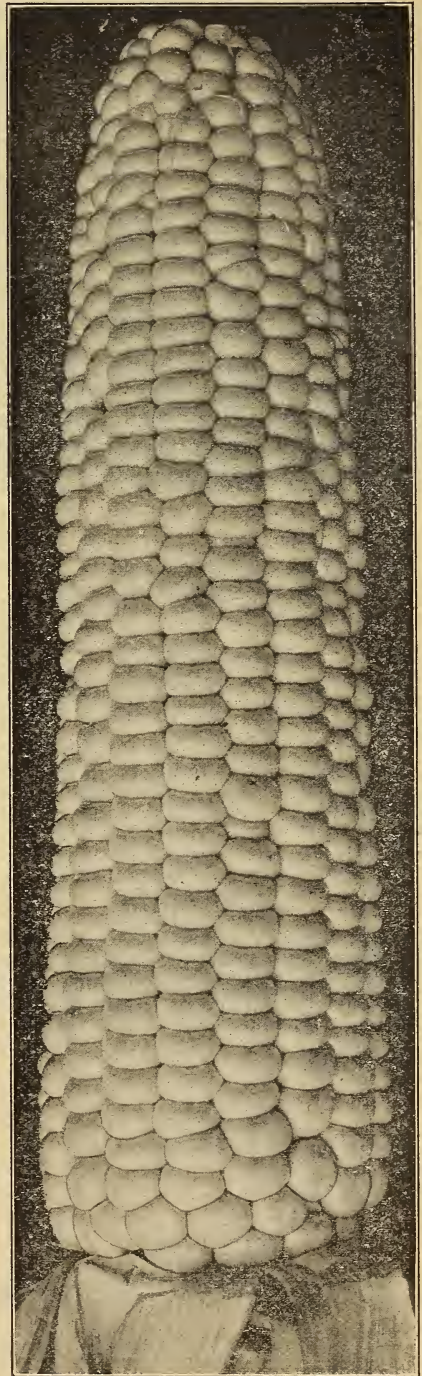

Improved Long Green—Extra long, large cucumbers; fine for slicing, pickling or for sweet pickles when ripe. A very vigorous and healthy grower. Pkt., $7\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 50c—lb., \$1.50; postpaid.

Thorburn's Everbearing—A splendid pickling cucumber; very vigorous, bearing through a long season. Medium sized and very uniform. This ranks among the best of the pickling sorts. This is one of the earliest of all cucumbers and as a good all-around cucumber we recommend it highly and especially for pickling. Pkt., $7\frac{1}{2}$ c— $\frac{1}{4}$ lb., 50c—lb., \$1.50; postpaid.

Boston Pickling—The most generally planted for pickles through this section. Medium sized and a vigorous grower. Pkt., $7\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 50c—lb., \$1.50; postpaid.

Small Gherkin—A small prickly variety used only for pickles. Cucumbers small and round oblong. Very prolific and bear through a long season. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c.

Lemon Cucumber — Resembles a lemon, both in color and form. A splendid acquisition, either for pickling or slicing. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 70c; postpaid.

HOWLING MOB CORN.

The best main crop white sweet corn. Far superior to the Evergreen varieties and exceptional sweet for table use or canning.

CORN SALAD.

Large Seeded—Sow in spring in drills one foot apart; it will mature in 6 or 8 weeks. For winter and early spring use, sow in drills in August and September. Three ounces to 100 feet of drill. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 50c.

GARLIC.

Common—Plant the sets very early in the spring. Lb., postpaid, 60c.

HORSERADISH.

Common variety. 50c per doz.—\$1.75 per 100; postpaid. By E. or F., 35c per doz.—\$1.25 per 100—\$9.00 per 1000.

ENDIVE.

Culture similar to lettuce. The outer leaves should be tied over the head to bleach.

Large Green Curled—One of the best sorts. Pke., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 60c.

EGG PLANT.

Start in hot beds like tomatoes; avoid any checks in growth. Set 2 $\frac{1}{2}$ feet in the rows and 3 feet between.

Black Beauty—The earliest and best of the large fruited varieties. Color rich, lustrous purplish black. Pkt., 10c— $\frac{1}{2}$ oz., 40c—oz., 75c.

KOHL RABI.

Early White Vienna—The best for table use. Kohl Rabi should be more grown, as it is a delicious vegetable, cooked like turnips. Transplant like cabbage in July; rows 3 feet wide and 1 foot in rows. Pkt., 7 $\frac{1}{2}$ c—oz., 25c— $\frac{1}{4}$ lb., 90c.

LEEK.

Monstrous Carentan—Culture same as onions. Large size. The best. Pkt., 10c—oz., 30c— $\frac{1}{4}$ lb., 90c.

MUSTARD.

Chinese—Large leaves, sweet and pungent. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25; postpaid.

Giant Southern Curled—Large variety with fine curled leaves. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

MUSHROOM.

Pure culture Mushroom Spaun. Per brick, 50c, postpaid. E. or F., 45c.

KALE.

Culture, same as that of cabbage.

Emerald Isle—The finest Kale for table use; extremely productive; fine curled. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c.

Tall Green, Scotch Curled—Tall and finely curled leaves. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c—lb., \$2.50; postpaid.

Dwarf German—Finely curled, low growing. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c—lb., \$2.50; postpaid.

KALE FOR FEEDING.

***SELECT THOUSAND HEADED**—This is a carefully selected strain that produces enormous yields. We have many letters testifying to the value of this strain of seed. Pkt., 10—oz., 25c— $\frac{1}{4}$ lb., 50c—lb., \$1.50; postpaid.

Common Thousand Headed—This is the grade of seed usually sold, and while not equal to the selected strain, will give good results. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 25c—lb., 75c; postpaid.

GIANT MORROW—Enormous plant on tall, heavy stems. The leaves are very broad and heavy and combined with the large stems, often 3 inches in diameter, make a heavy yield of feed. Pkt., 10c—oz., 35c— $\frac{1}{4}$ lb., \$1.00—lb., \$3.50.

Georgia Collards—Valuable as greens for table use and for stock feeding. They grow 2 or 3 feet tall and form loose, open, cabbage-like heads. They will withstand our winters and can be used all winter long. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 50c.

***JERSEY KALE**—It is claimed that this variety is much larger and a heavier producer of feed than any other sort. Our seed is Oregon grown and is the true Jersey Kale. Pkt., 15c—oz., 50c.

PARSLEY.

***Dark Moss Curled**—Dark green mosslike leaves. One of the very best sorts. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 50c.

COS LETTUCE.

Early White Self-Folding—Leaves yellowish white, crisp and tender; forms sugar loaf heads; bleaches better if tied. Pkt., 7 $\frac{1}{2}$ c—oz., 20c.

Paris White Cos—Largest of the Cos lettuce. Blanches very white. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 75c.

LETTUCE.

Can be planted most any time of the year. Give head varieties plenty of room. Cover one-half inch deep.

HEAD LETTUCE.

NEW YORK—The finest head lettuce for flavor, large heads of dark green color, extra tender and brittle. Produce mild heads even in the heat of summer. During the winter months this variety is shipped to our markets from California. While not early, we recommend it for the garden or for main crop market lettuce. Don't leave this off your order if you are fond of good head lettuce. It is very slow to run to seed. We have many customers who are enthusiastic over this lettuce. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c—lb., \$2.00.

Hanson—In our trials of some thirty varieties of lettuce, New York and Hanson proved the best summer lettuce, heading solid, tender and sweet, even in the hot weather. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., \$1.50; postpaid.

Early May King—Extra early; produces large heads noted for their rich buttery flavor. This variety stands early planting and is the leading early sort. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

Crisp as Ice—It was the most uniform head lettuce in our grounds. Heads compact, of a bronze red color, maturing very even. A beautiful lettuce for the table and should become a good seller. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c.

California Cream Butter—A fine butter-head lettuce, rich in flavor, head large, fairly compact, outer leaves light green; heart a beautiful golden butter. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

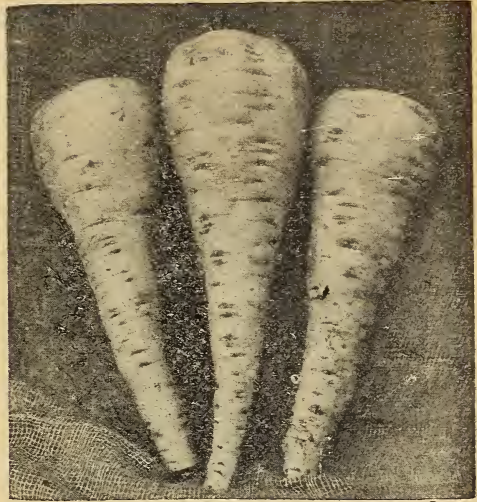

Big Boston—One of the best head sorts for fall sowing, as it is exceptionally hardy. Plants large, leaves broad, comparatively smooth, with wavy edge, hard and crisp; color bright, light green, slightly tinged with reddish-brown. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

LOOSE LEAF LETTUCE.

Black Seeded Simpson—Very large loose-leaf lettuce. Light green ruffled leaves. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.25.

Grand Rapids—The standard hot-house lettuce for forcing, also does fine in the open ground. Loose leaves of a light green color and fringed edges. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50.

Tomhannock—A beautiful loose-leaf lettuce with a reddish-brown border to the edge of the leaf. A quick grower of very tender, sweet leaves, entirely free from bitterness. Can be eaten with relish in the patch. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 50c.

GILL'S TENDER HEART PARSNIP.

WATERMELONS.

Plant 8 to 10 seeds in hills 6x6. Thin to 2 best vines. Turn vines with the row. Plant May 1st to 20th. Fertilize heavy.

HUNGARIAN HONEY—A small round, thin-rind melon with rich, red flesh. Extra early and sure to ripen even in the coolest season. Those who try it once will always have them in the garden for home use; they are so sweet. Pkt., 10c—oz., 30c— $\frac{1}{4}$ lb., \$1.00.

Halbert Honey—Claimed to be superior to Kleckley Sweets as it is more uniform, of darker color and more vigorous. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 35c—lb., \$1.25.

Kleckley Sweets—A medium early melon, 18 to 20 inches long and 8 to 10 inches thick; one of the sweetest watermelons. Good for near market. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 35c—lb., \$1.25.

Preserving Citron—Red-seeded, oval fruits; used for preserves. Pkt., 7 $\frac{1}{2}$ c—oz., 15c.

CASABAS.

Golden Beauty—Bright yellow, about globular in shape and the first to ripen. They will mature in most localities where melons can be grown. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c.

LETTUCE COLLECTION—9 pkts. lettuce list on this page worth 70c sent postpaid for 50c.

MUSK MELON or CANTALOUPE.

Melons require a light, loamy, rich soil in an early location. Plant 4 by 6 feet, giving more room for larger varieties. Use 8 or 10 seeds to the hill; cover 1 to 1½ inches deep. When the first leaves appear thin to two plants. Turn the vines with the row to permit cultivation.

HONEY DEW—A distinct new melon, claimed to be a cross between a casaba and muskmelon. Shape round oblong and color nearly white, flesh thick and extra sweet. Can be stored for late fall use, much like a casaba. Pkt., 15c—oz., 40c—¼ lb., \$1.25.

Emerald Gem—Truly the gem of red-fleshed melons. The dark green fruit is of medium size, flattened at both ends. The flesh is thick, sweet and melting, with a rich, spicy flavor. An early melon, well adapted to this section. Pkt., 7½c—oz., 15c—¼ lb., 40c—lb., \$1.25; postpaid.

Fordhook—A firm, heavy netted melon, extra early and a heavy yielder. Flesh and flavor much like the Emerald Gem. Pkt., 7½c—oz., 15c—¼ lb., 40c—lb., \$1.25.

Burrell Gem—Splendid shipper; 4 to 6 inches in diameter; seed cavity small, flesh firm and reddish orange. Pkt., 7½c—oz., 15c—¼ lb., 40c—lb., \$1.25.

Original Pineapple—The vines are very vigorous, producing a heavy yield of good-sized, heavily-netted melons, which are somewhat elongated in shape. The meat is thick, sweet and spicy flavored. This early melon should certainly be more planted. Pkt., 7½c—oz., 15c—¼ lb., 40c—lb., \$1.25.

Extra Early Hackensack—Produces melons two weeks earlier than the well-known Hackensack; heavily netted, and has light green flesh of most delicious flavor; a splendid Cantaloupe melon. Large, fine form; grown for the home garden very extensively. Pkt., 7½c—oz., 15c—¼ lb., 40c—lb., \$1.25.

Netted Gem or Rocky Ford—The standard shipping melon, medium size, with small seed cavity; green meated, spicy and sweet. Will not ripen except in those localities well suited to melon culture. Pkt., 7½c—oz., 15c—¼ lb., 35c—lb., \$1.15.

ONIONS.

A rich loam is best, fertilized with well-rotted manure at least one year old. Sow seed in February or March if the condition of the ground and the weather will permit. Sow with drill in rows 12 to 16 inches apart; cover half-inch deep. Hoe with wheel hoe as soon as they are up, but do not more than scalp the surface, as onions do not stand deep cultivation. Thin them to about 8 plants to the foot. It requires about 3 to 4 lbs. of seed to the acre. Onions are peculiar, in that they do well year after year on the same ground.

***SELECT OREGON YELLOW DANVERS**—This variety is largely planted through the Northwest. The onions are large, half globe shape with small necks; early and heavy yielders. We handle a strain of this seed, which is grown for us by an onion specialist who has been growing fine onions for several years in Oregon. Onions are a crop where it is imperative that good seed be used and this will give the very best of results.

The seed crop was exceedingly short and seed is limited. Pkt., 10c—½ oz., 20c—oz., 35c—¼ lb., \$1.00—lb., \$3.50; postpaid.

***Yellow Globe Danvers**—Large globe-shaped onions with small necks. We have secured a good strain of seed. They are quite similar to Oregon Yellow Danvers, except being more globe shaped. Pkt., 10c—oz., 25c—¼ lb., 80c—lb., \$2.75; postpaid.

Large Red Wethersfield—The standard red sort, of large size, flattened onions of purplish red; very productive and good shippers. Pkt., 10c—oz., 25c—¼ lb., 80c—lb., \$2.75; postpaid.

Prizetaker—Extra large onions of mild flavor; globe shaped with small necks; color bright straw. Pkt., 10c—oz. 30c—¼ lb. 90c—lb. \$3.00; postpaid.

Australian Brown—An extra early, sure cropping variety, with long keeping qualities. A sweet, mild flavored onion, with crisp, white flesh, covered with a bright reddish-brown skin. Largely used for growing onion sets and equally good for market purposes. Pkt., 7½c—oz., 25c—¼ lb., 70c—lb., \$2.25; postpaid.

WHITE ONIONS.

White Portugal or American Silverskin—This variety is considered the best of the white onions by many growers and is extensively used for bunching onions. A medium early sort of good size, somewhat flattened in shape, with clear white skin. Pkt., 10c—½ oz. 25c—oz. 45c—¼ lb. \$1.25—lb. \$4.00; postpaid.

Southport White Globe—The best keeping white onion. A heavy yielder of handsome globe shaped onions of finest quality. Preferred by many gardeners for green bunching onions. Pkt., 10c—½ oz. 30c—oz. 50c—¼ lb. \$1.50—lb. \$4.75.

White Queen—Usually planted thick to produce small pickling onions. Pkt., 10c—½ oz. 25c—oz. 45c—¼ lb. \$1.25—lb. \$4.00.

ONION SETS.

Write for prices on quantities.

Bottom Sets—Small onions grown from seed planted too thickly to reach mature size. They produce green onions in a short time, or if left to grow will produce nice large dry onions and earlier than those grown from seed. $\frac{1}{2}$ lb., 20c—lb., 30c; postpaid.

Top Sets—Produced in clusters. This perennial type is popular. $\frac{1}{2}$ lb., 20c—lb., 30c; postpaid.

Shallots—Desirable for bunching and early crop. The smallest sets make large bulbs, but the larger ones produce a cluster of small and medium-sized bulbs. Flesh white and mild. $\frac{1}{2}$ lb., 20c—lb., 30c; postpaid.

Potato Sets—Also called Bottom Multiplier. $\frac{1}{2}$ lb., 20c—lb., 30c.

PARSNIPS.

Culture same as carrots, except time of planting, which should be about May 1st.

***GILL'S TENDER HEART**—This strain is developed from seed we received over twenty-five years ago from an old resident in Portland, which proved so far superior to any other that we have never ran out of the seed, but have been selecting from the best from year to year. Unlike other parsnips the heart is tender, never tough; roots are smooth, hollow crown, thick and heavy at the top, tapering abruptly, making it easy to dig. We have the exclusive seed of this champion garden or market parsnip. Do not fail to try this parsnip, for it is unexcelled anywhere. Pkt., 10c—oz. 20c— $\frac{1}{4}$ lb. 60c—lb. \$1.75; postpaid.

***Gill's Success**—Longer roots than the Tender Heart variety and better adapted to market purposes, as it is not so thick at the crown and will bunch better. The smooth white roots cook tender and sweet. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50; postpaid.

PEPPERS.

Start plants in hot beds or in pots in a warm room in March. Transplant in open ground, May 10 to 20, rows 3 $\frac{1}{2}$ feet wide, 2 feet in rows.

Crimson Giant—Extra large peppers, of beautiful crimson when ripe. Their large size make them fine for stuffing. It ranks among the earliest and most prolific. Pkt., 10c— $\frac{1}{2}$ oz. 45c—oz. 85c.

Chinese Giant—The largest of the mild red peppers. One of the best for stuffing. A little later than Crimson Giant. Pkt., 15c— $\frac{1}{2}$ oz. 50c—oz. 90c.

Golden Dawn—Golden-yellow pepper; mild and sweet. Pkt., 10c.

EARLY MORN PEAS.

PEPPERS—Continued.

PERFECTION PIMENTO—Years of careful selection and improvement have brought the "Perfection Pimento" pepper to perfection indeed and we know that it has no superior, or in fact no equal on the market today. While this pepper is excellent for home use it is especially desirable for canners. The meat is several times as thick as the bell pepper type and yields fully 50 per cent more edible produce. It is the mildest of all peppers and is very sweet, delicious, and is free from all pungency. It is unusually smooth and uniform in shape so that the skins can be slipped off easily after being burnt over a hot fire for a few seconds or being boiled a few minutes in hot water, or it can be pared like an apple. When ripe it is a beautiful scarlet red. It is exceptionally productive and yields a heavy crop until frost. It is especially in demand by canners for pimentos, pickles and pulp. Pkt., 15c— $\frac{1}{2}$ oz. 45c—oz. 85c— $\frac{1}{4}$ lb. \$2.50.

FIELD PEAS.

For field peas and other field seeds, see pages 24 and 25.

GARDEN PEAS.

Culture—Plant as early as the ground can be worked in the spring. Peas will not reach perfection if planted after May 1st, although they will make a fair crop. They should be well rooted before warm weather begins. If planted during February and March they will mature before the aphids get started.

TALL VARIETIES.

***EARLY MORN**—The best early pea and fast becoming the market favorite. The earliest of large wrinkled peas; ahead of either Gradus or Thomas Laxton. The size of the pods is enormous for such an early pea, many pods containing eight to ten peas. Exceptionally heavy yielder and vigorous, growing three to four feet high. The money-maker in peas.

Imagine pods as large as Telephone peas and a few days ahead of Gradus. Those who planted this pea last year were surprised and are loud in their praise for it. The peas are dark green, large and of the finest flavor. Seed scarce. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 45c; postpaid. E or F, lb. 40c—10 lbs. @ 37c lb.

Gradus—A large podded first early sort extensively grown by market gardeners; in fact this is now one of the leading early sorts for early market. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 40c; postpaid. E or F, lb. 35c—10 lbs. @ 30c.

QUITE CONTENT—Enormous pods, one-third larger than Telephone. The color of pods and peas is dark green. The vines are tall and vigorous, producing heavy yields a week to ten days later than Telephone. This variety found ready sale at good prices on the public market at Portland. The peas are quite sweet and both pods and peas are larger than any variety we have seen. Seed very scarce. Pkts. only, 20c.

***SURPRISE**—New. Positively the earliest wrinkled pea; fully as early as Alaska. Vines 2 feet, pods about the size of American Wonder and fully as sweet flavored as that variety.

Beyond question the earliest and most profitable pea. Market gardeners received fancy prices for these peas last season, and they are enthusiastic about it. It is 7 to 10 days earlier than Gradus. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 45c; postpaid. E or F, lb. 40c.

***Telephone**—The standard main crop pea; tall growing habit, vine, pod and peas of light green color; enormous yielder and one of the best sellers on the market.

The seed we offer is true Telephone and can be relied upon. Pkt., 15c— $\frac{1}{2}$ lb. 20c—lb. 35c; postpaid. E or F, lb., 30c—10 lbs @ 27c lb.

DWARF VARIETIES.

***Little Marvel**—Superior to American Wonder with larger pods and only a few days later. Flavor fully as good. One of the finest dwarf peas. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 40c; postpaid. E or F, lb., 35c—10 lbs. @ 30c lb.

LAXTONIAN OR BLUE BANTAM—Enormous pods, well filled, on dwarf vines. We recommend this new pea very highly. It is the ideal pea for those who wish large pods on dwarf vines. Peas extra sweet and of dark green color. Seed crop very short. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 45c; postpaid. E or F, lb., 40c.

***American Wonder**—This old stand-by is too well known to need description. A dwarf early growing pea; very productive and sweet as sugar in flavor. True seed. Pkt., 15c— $\frac{1}{2}$ lb. 25c—lb. 40c; postpaid. E or F, lb. 35c—10 lbs @ 30c lb.

POTATOES

Plant early kinds as early as the ground will work. Late varieties May 20 to June 20. Rows $3\frac{1}{2}$ feet wide, 20 inches in row. Cut to one or two eyes.

SELECTED RURALS—Everyone is familiar with the remarkable improvements made in potato growing through hill selection, and in this we have secured a strain that has had fourteen years steady hill selection.

This selection has developed the following traits: heavy production, uniformity of size, strong vitality, smooth round shape, and grand cooking qualities. This is the same variety as is grown so much in Idaho but is a great improvement over any other type of Rural New York. Our stock is limited.

***EARLIEST OF ALL**—Undoubtedly as early as any potato grown and we consider it the most desirable early market or home garden potato.

It is superior to the Irish Cobbler which it somewhat resembles, but is a better yielder and of stronger vitality. It is exceptionally free from disease and is the best all round early potato we know of.

***Snow**—We have grown this for several years and are well pleased with its yielding qualities. Nearly every potato grows perfect in shape, roundish, slightly flattened, with snow-white skin and flesh. Produces very few unsalable potatoes. Can be planted closer than the Burbank and still produce good size tubers.

Write for prices on quantities.

***RELIANCE**—After careful observations in different localities, we are convinced that this is the one great potato for extra rich soils, low lands, dyked lands, etc. The fact that they set so many potatoes to the hill, generally 15 to 30, will prevent their success on high lands, but makes a big point in their favor for rich low lands, where the tendency is for the potatoes to grow too large. In fields we visited this fall we often found 20 salable potatoes to the hill and none of them too large or coarse. The color is light brownish white and the tubers are shaped much like the Burbank. The flesh is white and they are splendid cookers.

***Pride of Multnomah**—A new potato that is superior to the Burbank. A strong, vigorous grower producing perfect white potatoes of the Burbank shape.

This potato is giving fine satisfaction and we recommend it.

***Netted Gem**—Called by some the Russet Burbank. Long shaped tubers, covered with a fine netting. They are of splendid texture and noted for their baking qualities.

***WHITE ROSE**—This new potato is a very heavy yielder of round, oblong, white potatoes that are in great demand.

It has great endurance and is meeting with general favor throughout the Northwest. The name is misleading as it has none of the

Early Rose characteristics and is not an early potato, but nevertheless its heavy yielding qualities, great vitality, good keeping qualities and smooth shape are bound to make it a leader.

***Early Rose**—The old favorite, true seed.

***Burbank**—The standard sort.

***American Wonder**—Favorite second early sort.

Other Varieties—We are located in a potato growing section and have a wide acquaintance, which enables us to secure other good seed stocks. Write us regarding any variety not listed.

POTATO SEED BALLS—We have decided to list potato seed saved from seed balls. These will be found interesting to grow and boys and girls should be encouraged in experimenting with them. The seed is offered in mixture and will produce potatoes of various shapes and colors. Valuable new varieties are sometimes found by planting out these seedlings. Start the plants like tomatoes and transplant. Pkt., 15c.

PRICES ON POTATOES.

By mail, postpaid, at 20c per lb; 3 lbs. for 40c. For quantity please drop us a card.

SWEET POTATOES.

Sweet Potato Plants—Ready in May.

Doz., 40c—100 for \$2.25; postpaid.

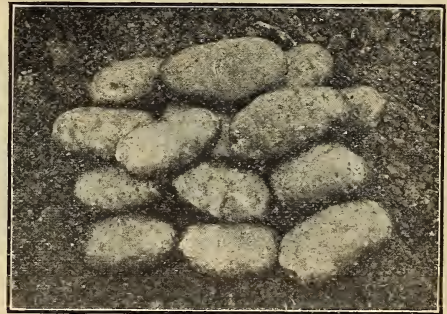

PUMPKIN.

Plant May 10 to 20 in rows 10 feet wide and 8 feet in the row; about 8 or 10 seed to the hill; thinning to two good plants. Turn vines with the row to permit cultivation. Use 200 lbs. Utah land plaster to the acre, plowing it in.

***WINTER LUXURY PIE**—This is fast becoming the standard pie pumpkin wherever it becomes known. We were among the first to introduce this pumpkin to the Portland trade and have many customers who will refuse every other. Medium sized, covered with heavy netting, the flesh is thick, of rich yellow color and cooks fine grained, without strings, and requires much less of eggs to make good pies than other kinds. A good keeper and very prolific. Our strain of seed produces fruit of rich, orange colored skin, while that usually offered is of lemon yellow type. We have also bred up the size of this pumpkin. Pkt., 10c—oz. 20c— $\frac{1}{4}$ lb. 50c—lb. \$1.75.

Mammoth Tours—A variety of immense size, grown for stock feed and exhibition. Pkt., 10c—oz. 20c— $\frac{1}{4}$ lb. 50c—lb. \$1.50; postpaid.

Connecticut Field, or Jack O'Lantern—The common field pumpkin grown for stock feeding and jack lanterns. Some prefer it for pies. Our seed is carefully selected for jack lantern shapes. Rich orange colored skin. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 35c—lb. \$1.00; postpaid.

RELIANCE POTATOES.

Improved Large Cheese—Heavy, thick meated pumpkins with deep salmon flesh; cooks fine grained and sweet; excellent for pies. Rather flat fruit, flesh orange color. A heavy yielder and fine for stock. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 40c—lb. \$1.25; postpaid.

Oregon grown squash and pumpkin seed give far better results than any others. Don't overlook the importance of acclimated seeds.

RADISH.

Note—Express of Freight price 5c less per pound.

***WHITE PEARL**—The best of the white radishes; roots five to seven inches long; of a beautiful pearly white color. Stands fine without going woody. Similar in shape to White Icicle, but superior in quality. Flesh tender, crisp and sweet. Pkt., 10c—oz. 20c— $\frac{1}{4}$ lb. 50c—lb. \$1.70.

Early Scarlet Globe—Beautiful scarlet globe-shaped radish, of quick maturity and exceptionally fine flavor. Good market sort. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50; postpaid.

Early Scarlet Turnip, White Tipped—Turnip-shaped radishes, scarlet with white tips. A popular market radish sold by the vegetable men the year around. Excellent quality and extremely early. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50; postpaid.

Crimson Giant—A crimson, turnip-shaped radish that combines large size with extreme earliness. A splendid radish that does not go pithy very soon. Pkt., 10c—oz. 20c— $\frac{1}{4}$ lb. 50c—lb. \$1.75.

Long Bright Scarlet, White Tipped—A beautiful radish; clear, bright scarlet, the roots of which grow about six inches long, are tipped white. This is a fine radish of good quality. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50.

***THE SPARKLER**—One of the best for market gardeners. Larger than Early Scarlet

Turnip White Tipped and of brighter color. The upper half is bright scarlet, while the lower half is white, making a sharp and pretty contrast. Pkt 10c—oz. 20c— $\frac{1}{4}$ lb. 50c—lb. \$1.75; postpaid.

Cincinnati Market—An excellent radish of scarlet color; five to seven inches long; skin very thin, flesh crisp, brittle and of good flavor. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50.

White Icicle—A splendid white radish of long shape and with mild flavor. This radish is a general favorite. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50.

Scarlet China—Roots of bright scarlet color; fine quality. Sow in September for winter use. Pkt., 7 $\frac{1}{2}$ c—oz. 15c— $\frac{1}{4}$ lb. 45c—lb. \$1.50.

Long Black Spanish—Long black winter radish. Sow in August. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50; postpaid.

***JAPANESE RADISH.**

A sensation was caused by the appearance on the public market at Portland of this new radish. Roots three feet long and two inches in diameter sold for five cents each. They keep through the winter like carrots or rutabagas. The flavor is excellent. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c.

RADISH COLLECTION.

We offer one packet of each kind of radish listed, 11 packets in all, worth at regular prices 92 $\frac{1}{2}$ c, sent for 65c, postpaid.

TRUE TYPE HUBBARD SQUASH.

SALSIFY or VEGETABLE OYSTER

***Mammoth Sandwich Island**—A good sort and most generally planted. Cultivate same as carrots. Pkt., 10c—oz. 35c— $\frac{1}{4}$ lb. 85c—lb. \$3.00; postpaid.

VEGETABLE ORANGE.

Grows somewhat like a muskmelon; small-sized, round-shaped, orange-colored fruit; fine for sweet pickles and preserves; yields heavy in this climate. Pkt., 10c.

SUNFLOWER.

***Mammoth Russian**—This is one of the heaviest yielders and produces extra large heads, well filled with large, plump seed. Oz., 5c— $\frac{1}{4}$ lb., 10c—lb., 30c; postpaid. E. or F., lb., 25c.

TOBACCO.

Connecticut Seed Leaf—This is one of the earliest maturing sorts for our Northwest climate. Pkt., 10c—oz., 40c.

SQUASH.

Plant from May 10th to 20th in hills 10 feet by 10 feet. 8 to 10 seeds to the hill. Thin to two strong vines. Sow 200 pounds of land plaster to the acre and plow in.

***DELICIOUS**—Mr. Gregory's late introduction; we consider the finest grained, driest cooking and sweetest squash in cultivation. Of medium size, top shaped with greenish-black skin, flesh very thick, orange-colored, with small seed cavity. Try this squash and be convinced that it is the best that grows. True seed of our own growing. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 55c—lb., \$1.75.

Boston Morrow—Skin and flesh reddish yellow. Productive and a favorite with canners. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.35.

***Underwood's Blight Resistant**—This new squash is the result of crossing three varieties together and has now been tested for several years. In sections of Eastern Oregon it is very hard to grow squash, owing to blight, but it does not affect this variety. It is a heavy producer and the squashes are of good quality. The colors are not fixed, but many of them are orange yellow, while others are deep green. If you are troubled with blight, try this variety. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 60c—lb., \$1.75.

Golden Hubbard—Similar in size and shape to the Hubbard but of golden red color. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 50c—lb., \$1.65.

SUMMER SQUASH.

Mammoth Summer Crookneck—Grows larger than the common sort. Fine for summer use. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 35c—lb., \$1.25.

Mammoth White Bush Scallop—Early; large, pure waxy white skin; somewhat flattened in shape. Pkt., 1 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 35c—lb., \$1.25.

ITALIAN MARROW—A large productive variety of exceedingly rich flavor. Should be used when young. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 50c.

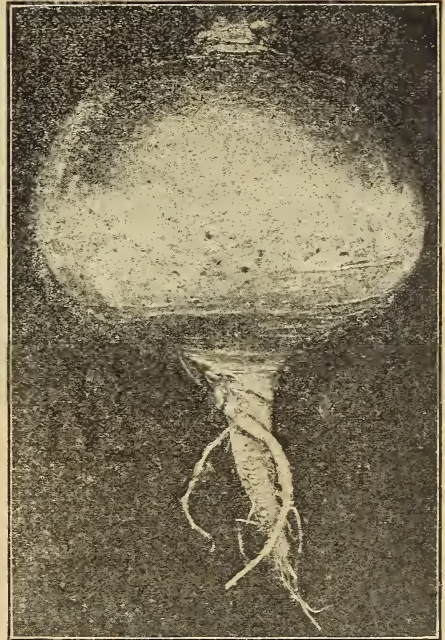

SPINACH.

Sow in drills 16 to 20 inches apart; thin to 6 inches. For early spring use, sow in the fall or sow in early spring for later use.

***Victoria**—A good, longstanding sort, with large, thick, dark green leaves, slightly crumpled. Good for market or garden. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 50c—lb., \$1.65.

***Long Stnding**—Broad arrow-shaped leaves of rich dark green. Rather late of maturity and will keep in good condition longer than most sorts. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50.

***True Hubbard**—The standard squash, and while we do not consider it equal to the Delicious in flavor, it is a heavier yielder and is better known in the market. We have a true stock of seed, carefully selected for color, shape and quality. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 40c—lb., \$1.35.

IMPROVED PURPLE TOP YELLOW
RUTABAGA—Page 22.

SPINACH—Continued.

Savory Leaved—An early sort generally used for fall sowing. Leaves crumpled. A hardy, rapid grower. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50.

Prickly Winter—True seed, not to be confused with the Japanese sort. Hardest variety. Must be sown in the fall. Leaves pointed and long, thick and succulent. Seed prickly. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50.

MISCELLANEOUS.

Caraway—Used in confectionery, cakes and bread. Pkt., 10c—oz., 20c.

Dill—Used as a condiment and for flavoring cucumber pickles. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 60c—lb., \$2.00.

TOMATOES.

Plant seed in box inside or in hotbed from February 15 to March 1. Transplant May 10 to 20 in rows 6 feet wide and 5 to 6 feet in rows. A light loamy soil, well cultivated and fertilized, is best.

***GILL'S SELECT EARLIANA**—The earliest, smooth, first-class tomato, and will ripen a full crop in the Northwest states. Fruit a large, bright red, very smooth, deep from stem to blossom end; very solid, with few seeds and of fine flavor. Sets plenty of tomatoes that ripen in a short season. In selecting our stock seed in the season of 1910 we found one cluster of fruit which ripened even all over, not having any green color about the stem so common with this and many other varieties. Our seed is now all grown from this start, producing a more even colored Earliana than any yet offered. The fruit is very solid with few seeds and the flavor is excellent. The best for canning. This strain has proven to be the best of the first early tomatoes and we have many testimonials from our customers to that effect.

Regarding prices, we have been compelled to make them considerably higher, as we find that the more we develop this strain the less seed they make. Last fall the tomatoes out of which we saved seed were worth from 50c to 80c per box. Adding to this the cost of saving seed and overhead, we must ask the following prices: Half pkt., 15c—pkt., 25c— $\frac{1}{2}$ oz., 40c— $\frac{1}{4}$ oz., 75c—oz., \$2.50— $\frac{1}{2}$ lb., \$8.00.

BONNY'S BEST EARLY—On account of its heavy production, uniform shape, exquisite deep scarlet color, fine flavor and medium size, this is the best market gardeners' tomato. Only ten days to two weeks later than Select Earliana. Gave better satisfaction last summer on the public market than any tomato sold there.

Bonny's Best has proven very popular with market gardeners and greenhouse growers. We believe it will yield more first grade tomatoes for packing than any other and their bright red color and uniform size command a ready sale. One of the best slicing tomatoes grown. We carry an extra good selected strain not to be compared with others. Pkt., 10c— $\frac{1}{2}$ oz., 50c—oz., 90c— $\frac{1}{4}$ lb., \$3.00.

Chalk's Early Jewel—A reliable sort; while larger fruited than Bonny's Best, it is not quite so uniform in shape; a heavy yielder of good flavored fruit. Our seed is carefully selected. Pkt., 10c— $\frac{1}{2}$ oz., 40c—oz., 75c— $\frac{1}{4}$ lb., \$2.50.

Early Dwarf Quarter Century—Earliest of the dwarf or tree tomato type. The fruit is bright red, solid and meaty. smooth and free from cracks. Pkt., 10c— $\frac{1}{2}$ oz., 40c—oz., 75c— $\frac{1}{4}$ lb., \$2.50.

Stone—One of the largest and most solid, bright red varieties. Fruit nearly round, slightly flattened, exceptionally smooth and uniform. Unusually fine for slicing and canning. Pkt., 10c— $\frac{1}{2}$ oz., 30c—oz., 50c— $\frac{1}{4}$ lb., \$1.75.

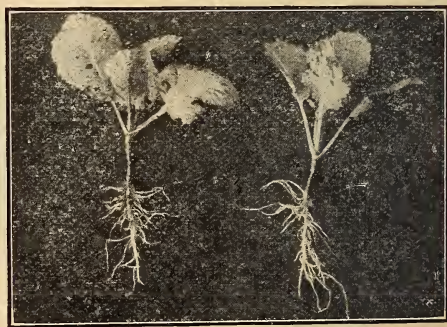

GILL'S SELECT EARLIANA TOMATO.

SMALL FRUITED TOMATOES.

***Yellow Pear**—Used for preserving, extra early and produces an abundance of yellow, pear-shaped tomatoes. Pkt., 10c—oz., 50c.

Red Pear—Same as Yellow Pear, except color. Pkt., 10c—oz., 50c.

Ground Cherry or Husk Tomato—Prized for preserves, pies and sauce. Will keep into the winter. Pkt., 10c—oz., 50c.

WINTERED-OVER, EARLY CABBAGE PLANTS

See Page 23.

FERTILIZERS.

We will be pleased to quote you on such fertilizers as are obtainable. State quantity desired.

TURNIPS.

Deduct 5c per lb. by Express or Freight on turnips and rutabagas. Sow broadcast from August 1 to 20th for late turnips.

Extra Early White Milan—Among the earliest; roots clear white, smooth, flat and good quality. The best for early planting in the spring or for late fall sowing. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 65c—lb., \$2.00; postpaid.

Early Snowball—An extra early turnip, snow white, crisp and solid. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 55c—lb., \$1.75; postpaid.

White Egg—A quick growing, egg-shaped, smooth, pure white variety with flesh very sweet, firm and mild. The best table turnip. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 50c—lb., \$1.50.

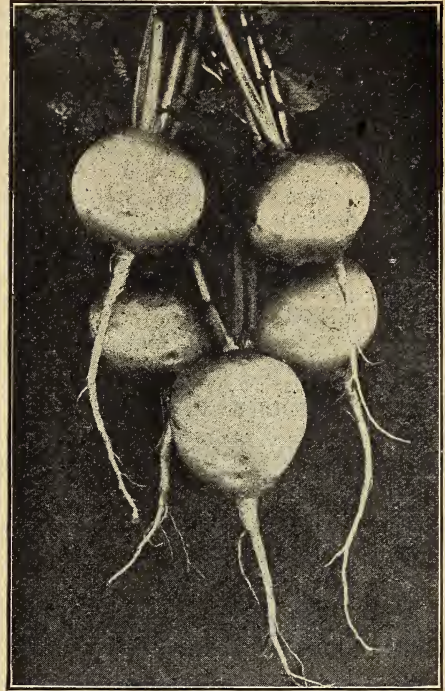

Cow Horn—A large, long-rooted, white turnip, largely used for stock feeding. Pkt., 10c—oz., 25c— $\frac{1}{4}$ lb., 75c—lb., \$2.50.

***Pomeranean White Globe**—A large globe shaped, smooth, white turnip. Good either for stock or table; resists the worms the best. One of the best keepers. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50.

Orange Jelly, or Golden Ball—The best yellow sort for market or family use. Root medium sized, round and smooth, with yellow skin and flesh. One of the most popular varieties for canning. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 50c—lb., \$1.75.

Purple Top Yellow Aberdeen—This is largely grown for stock feeding. The roots are yellow with purple top, the flesh yellow and of fine texture. A fine keeping sort. Pkt., 7 $\frac{1}{2}$ c—oz., 15c— $\frac{1}{4}$ lb., 45c—lb., \$1.50; postpaid.

Purple Top White Globe—We consider this the best all around late turnip for fall and winter use. Its beautiful color, pure white with purple top, combined with its smooth globe shape, fine sweet flavor and its wonderful productiveness, put this turnip in the front class for either market or home use. We have an unusually fine strain of this seed. Pkt., 7 $\frac{1}{2}$ c—oz., 20c— $\frac{1}{4}$ lb., 50c—lb., \$1.75.

PURPLE TOP WHITE GLOBE.

RUTA BAGAS.

Sow in drills, 3 feet wide; thin to 6 inches apart. May be planted from June 15th to July 15th. The later sowings make roots of the best quality.

***IMPROVED PURPLE-TOP YELLOW**—We find this the best all-around Rutabaga. Produces nice, smooth, globe-shaped roots free from side roots. The best for table use and very rich and productive for stock feeding. It is early and will mature good roots, planted late in the season. Good seed from selected roots. Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 70c—lb., \$2.25; postpaid.

Sweet Russian—One of the best white-meated Rutabagas. A good yielder, Pkt., 10c—oz., 20c— $\frac{1}{4}$ lb., 70c—lb., \$2.25; postpaid.

The Big Four in Sweet Corn.

Plant these four great favorites and get the right succession.	Pkt.
GILL EARLY MARKET. The earliest white Sweet Corn.....	.15

1 Pkt. each of above four kinds sent postpaid for 50c.

Vegetable and Flower Plants.

500 PLANTS WILL BE SUPPLIED AT THE 1000 RATE.

EARLY CABBAGE—Grown in the open ground and wintered over. Good strong healthy plants ready Jan. 1st to April 15th.

Early Jersey Wakefield and Large Wakefield—Doz., 25c—3 doz., 60c—100 at \$1.25; postpaid. E or F, 100 at \$1.00—1000 at \$6.00—5000 at \$5.00 per 1000.

EARLY CAULIFLOWER—Grown in frames. Ready March 1st to May 1st.

Early Snowball—Doz., 40c—3 doz., 80c—100 at \$2.00; postpaid.

LATE CABBAGE—Well hardened plants grown in open. Ready June 10th to Aug. 15th.

Gill's Oregon Ball Head, Danish Round head, Glory of Enkhuisen, All Head Early, Red Cabbage and Savoy—Doz., 25c—3 doz., 50c—100 at \$1.00; postpaid. E or F, 100 at 75c—1000 at \$4.50—5000 @ \$4.00 per 1000.

LATE CAULIFLOWER—Grown in open. Ready June 20th to Aug. 15th.

Veitches Autumn Giant, Mam. White Broccoli, St. Valentine Broccoli and Mid Winter Broccoli—Doz., 30c—3 doz., 60c—100 at \$1.50; postpaid. E or F, 100 at \$1.25—1000 at \$6.50—5000 at \$5.50 per 1000.

BRUSSEL SPROUTS—Ready July 1st to Aug. 15th. Prices same as late cabbage.

KALE PLANTS—Grown in open. Ready June 20th to Aug. 15th.

Tall Scotch Curled, Dwarf German, Emerald Isle, Jersey Kale, Giant Marrow Kale, Georgia Collards, Select 1000 Headed Kale—Doz., 20c—3 doz., 45c—100 at 85c—; postpaid. E or F, 100 at 60c—1000 at \$4.00—5000 at \$3.50 per 1000.

TOMATO PLANTS—Frame or green house grown. Ready April 15th to June 15th.

Gill's Selected Earliana—Doz., 50c—3 doz., \$1.00—100 at \$2.50; postpaid. E or F, 100 at \$2.25—1000 at \$18.00.

Bonny's Best, Chalk's Jewell, Yellow Pear, Red Pear—doz., 40c—3 doz., 80c—100 at \$2.00; postpaid. E or F, 100 at \$1.75—1000 at \$15.00.

PEPPER PLANTS—Ready May 1st to June 15th.

Chinese Giant, Pimento—Doz., 40c—3 doz., 80c—100 at \$2.00; postpaid. E or F, 100 at \$1.75—1000 at \$15.00.

CELERY—Transplanted. Ready May 1st to Aug. 1st.

Golden Self Blanching—Prices Same as pepper.

FLOWER PLANTS.

All frame or greenhouse grown. Ready April 20th to June 15th. Prices uniformly 50c doz.—3 doz., \$1.25—100 at \$3.00; postpaid. E or F, \$2.75 per 100. All are grown from seed; none from cuttings.

Asters—All Crego and Branching varieties listed in catalog.

Verbena—Scarlet, White and Blue.

Sweet William—Double or Single Mixed; white, pink, scarlet, maroon.

Cosmos—Late or Early Flowering Mixed; pink, crimson, white.

Petunia—Defiance, largest flowering.

Heliotrope—Lemoines Giant.

Marigold—Dwarf French Mixed, Large African Mixed, Orange Prince.

Mignonette—Defiance Mixed.

Salvia—Splendens.

Godetia—Crimson Glow, Rosamond.

Ten Week Stocks—Red, pink and Purple.

Zinnia—Scarlet, yellow, crimson, pink and mixed giants.

Sweet Alyssum—Trailing or Dwarf.

Lobelia—Blue, Trailing or Dwarf.

ACCLIMATED SEEDS ARE BEST.

We have hundreds of testimonials, many from the largest market gardeners, testifying the high quality of our goods.

Acclimation of seed is all important to the crop and means greater vitality, productiveness and earlier maturity. If you have not tried our goods, do so now and be convinced. The rapid growth of our business testifies to the quality of our goods.

SECTION OF FIELD SEEDS.

Owing to constant changes in prices we cannot guarantee any of the prices made; however, most of those given are on small lots and we do not expect to have to change these.

Field Corn, Stock Kale and Sunflowers are listed in the Vegetable Section.

Grasses for Lawns.

Write for prices on quantities.

Oregon Lawn Grass—Best general mixture for lawns containing the finest leaved grasses in correct proportion. Mixed from deep-rooted grasses that will make a lawn that is green summer and winter. Use about one pound to 400 square feet.

Price with White Clover. Lb., 50c., postpaid. E. or F., lb., 45c—10 lbs. at 40c per lb.

Price without White Clover. Lb., 35c, postpaid. E. or F., lb., 30c—10 lbs. at 25c per lb.

Shade Lawn Mixture—A special mixture for shady places. Soils of this nature should be treated with air slaked lime before sowing. This will prevent souring. Use about 5 lbs. of lime to 100 square feet.

Lb., 75c, postpaid. E. or F., lb., 70c—10 lbs. at 65c per lb.

Kentucky Blue Grass—Used extensively for lawns. Sow 1 lb. to 400 square feet. Fancy seed. Lb., 50c, postpaid. E. or F., lb., 45c.

English Rye Grass—This is used for lawns by many gardeners, and if sown thickly will make a good hardy lawn. Especially desirable for large grounds and parks. Lb., 30c, postpaid; E. or F., lb., 25c—10 lbs. at 20c lb.

White Clover—Some prefer to sow the pure white clover for lawns. It is exceptionally hardy and permanent. We carry a very high grade seed. Lb., 75c, postpaid. E. or F., lb., 75c—10 lbs. at 67c lb.

Other Mixtures for special purposes can be supplied. Also lawn fertilizers. Drop us a card regarding these.

Clover and Alfalfa Seeds.

We carry a stock of Red Clover, Alsike Clover, White Clover, Sweet Clover and Alfalfa. We can also supply Mammoth Red Clover.

Prices are usually changing throughout the season, so we do not quote them here, but will fill according to the market price when order is received. White Clover is priced in the Lawn Grass Section.

GRIMM ALFALFA—Several of our customers who have tried Grimm will use no other strain of Alfalfa. We are slow to introduce novelties unless they prove of real value and we feel there is no question about the good points in growing Grimm and can recommend it strongly. There are very definite advantages in growing the Grimm in preference to other varieties; it is absolutely hardy, so there is no danger whatever of winter killing; it starts to grow earlier in the spring; its branch root system permits it to grow on hardpan soils and where water is near the surface; and it is finer and leafier. Be sure of getting the genuine Grimm Alfalfa. Our seed is direct from the introducer and he secured his original seed of Wendelin Grimm. Lb., 75c, postpaid. E. or F., lb., 70c—10 lbs. or more at 65c lb.

Grass Seeds.

We can supply various grasses such as Kentucky Blue Grass, Canadian Blue Grass, English Rye Grass, Italian Rye Grass, Timothy, Orchard Grass, Ted Top, Tall Meadow Oat Grass, Meadow Fescue, Sheep's Fescue, Mesquite. We can also supply pasture mixtures. State nature of your soil and requirements.

Prices are so much subject to change we do not quote them here, but will be glad to mail samples and prices on request. Kentucky Blue Grass and English Rye Grass are priced in the list of Lawn Grasses. If customers desire they can mail us remittance and we will fill the amount at the market prices when order is received.

Grain Seeds.

Prices vary so much we give only small lot prices, postpaid. If interested write us and we will quote prices or you may remit what you desire and we will fill the amount according to market prices.

SEED OATS.

HEAVY CROPPER—We secured a limited amount of this valuable tree oat, which has proved to be an exceptionally heavy yielder even under adverse conditions. Its value shows in the following good points: Extreme hardness, earliness of maturity, strong straws, heavy yields and large, plump grains of heavy weight. The seeds are white. Extra heavy yields were produced on gravelly soils last season when conditions were very unfavorable. A farmer brought the seed from Canada and it met with great success here. Lb., 20c—3 lbs., 50c; postpaid.

SHADELAND HULLESS—A splendid branching oat, early and a heavy yielder that threshes entirely free from hulls. Grow some of this and make your own oatmeal at home. Per lb., 25c—3 lbs., 60c; postpaid.

Shadeland Eclipse—Side oat. Produces immense yields of plump, heavy, thin-hulled, white oats of finest quality. Lb., 20c—3 lbs., 50c; postpaid.

Shadeland Climax—Tree oat. A very hardy, early oat with large, white, plump grains with thin hulls. Withstands freezing or drought to an unusual degree. Lb., 20c—3 lbs., 50c; postpaid.

Gray Winter, Swedish Red and Black Oats. Lb., 15c—3 lbs., 35c; postpaid.

SEED WHEAT.

Marquis—The earliest and heaviest yielding hard spring wheat. Hardy and vigorous and excellent for milling. Lb., 15c—3 lbs., 40c; postpaid.

Blue Stem (Spring), Little Club (Spring), Red Chaff (Spring), Forty Fold (Winter), and Turkey Red (Winter). Each at, lb., 15c—3 lbs., 40c; postpaid.

SEED BARLEY.

Orderbrucker—Very prolific and the earliest barley. 6 rowed heads on stiff, rust-resistant straw. Lb., 15c—3 lbs., 40c; postpaid.

White Hulless or Bald—Very early spring variety, beardless, with heavy, plump grains. Heavy yielder and of high feed value. Lb., 15c—3 lbs., 40c; postpaid.

Black Hulless—Good either for fall or spring. Extra heavy yielder. The best for fattening stock. Lb., 15c—3 lbs. at 40c; postpaid.

FIELD PEAS.

FIELD PEAS—Canadian. Lb., 15c—3 lbs. 40c; postpaid.

—**Brennen**—Extra hardy for fall and early spring sowing. Lb., 15c—3 lbs., 40c; postpaid.

Blue Bell—Hardy dwarf sort with deep green peas, even after ripening. Desirable variety for pea soup or other table purposes. Lb., 20c—3 lbs., 50c.

MISCELLANEOUS FIELD SEEDS

If prices on quantities are not given, write us for quotations, or you may send funds and we will fill the amount at market prices.

ARTICHOKE—Lb., 15c—3 lbs., 30c; postpaid. E. or F., 100 lbs. at \$2.75.

BUCKWHEAT, Silver Hull, and Japanese—Lb., 15c—3 lbs., at 40c; postpaid.

CHEAT SEED—Lb., 15c—3 lbs., 40c; postpaid.

COW PEAS—Whip-Poor-Will. Lb., 20c 3 lbs., 50c.

EMMER—Lb., 15c—3 lbs., 40c; postpaid.

FETERITA—Lb., 15c—3 lbs. at 40c; postpaid.

FLAX—Lb., 20c—3 lbs., 50c; postpaid.

KAFFIR CORN—Lb., 20c—3 lbs., 50c; postpaid.

RAPE—Dwarf Essex. Lb., 25c—3 lbs., 65c postpaid. E. or F., 10 lbs. at 18c lb.

MILLET—Golden. Lb., 20c—3 lbs., 50c; postpaid.

***Hog Millet**—Rapid growing large seeded variety and valuable for hogs and poultry. Extra early. Lb., 20c—3 lbs., 50c; postpaid.

RYE—Common Bearded—Lb., 15c—3 lbs., 40c; postpaid.

SUGAR CANE—Early Amber. Lb., 20c—3 lbs., 50c; postpaid.

VETCH—Common. For hay sow equal weight mixture of vetch with oats, wheat or rye at rate of two bushels per acre. Sow in fall or early spring. Lb., 15c—3 lbs., 35c; postpaid.

***SUDAN GRASS**—Short crop. True seed. There is no longer any question about the good qualities of Sudan Grass; it has come to stay and will become a great annual feed crop. The true Sudan seed is nearly white, while many of the hybrid varieties on the market are of a dark brownish color. We grew this seed last season and know it is genuine. Sudan is valuable to sow with other legumes, as it will hold them up and is considered far ahead of millet for feeding. Horses are fond of it and eat even the coarse bottom stalks. It requires 3 to 4 lbs. per acre in drills 3 feet apart and 5 to 6 lbs. per acre in drills 20 inches apart and about 16 lbs. broadcast. It should not be planted too early as frost will injure it. Corn planting season is the best time. $\frac{1}{4}$ lb., 15c—lb., 50c; postpaid. E. or F., lb., 45c—10 lbs. at 40c.

Hybrid Sudan—This is the type of Sudan grass generally sold. The seed is of a dark brownish color. The seed of this type is more plentiful and can be sold for less. $\frac{1}{4}$ lb., 15c—lb., 35c; postpaid. E. or F., lb., 30c—10 lbs. at 28c per lb.

Note—All of our Sudan Grass is guaranteed free from Johnson grass and other obnoxious weeds.

FLOWER SEEDS

War conditions have affected the seed crop of flowers and some varieties may run out.

GILL'S HIGH GRADE ASTERS.

We aim to supply the very best Aster seed that can be grown or purchased, and the most up-to-date varieties and types will be found in our list. Asters are one of the best cut flowers that can be grown and every garden should have these wonderful types.

Sow seed in boxes inside or in frames, about February 15th to March 1st, and transplant during May. In ordering simply say Crego White, King White, etc.

MAMMOTH BOUQUET ASTERS.

This distinct new type is now offered for the first time and is a cross between the Crego type and the branching asters. Some complaint has been found in the past with the Crego type, that the stems were not long enough, also with the lack of size in the branching type, but in this we have a flower with long, upright, strong stems and extra large flowers. The flowers are much like the Crego but the stems are like the branching asters. Only three colors have as yet been produced, which we offer as follows: **Light Blue, Dark Blue, White and Mixed.** Each, Pkt., 20c.

Giant Crego Asters—(See cut).

The most popular class. Immense fluffy flowers averaging 4 to 6 inches in diameter. Vigorous plants producing abundance of these large flowers on good stems. Offered in separate shades as follows: **Crego Shell Pink, Crego Rose Pink, Crego White, Crego Purple, Crego Lavender and Crego Mixed.** Each, Pkt., 10c.

King Asters—A distinct type; very double blooms composed of long, almost straight petals, tightly rolled or quilled. Strong, sturdy plants and stems.

We are offering the following varieties or colors: **Crimson King, Lavender King, Pink King, Rose King, Violet King, White King, and Mixed King.**

Late Branching Asters—This type is considered the best for cutting, as the stems are very long and strong, holding the flowers upright. They are strong, hardy growers, producing blooms 4 to 5 inches across, composed of tightly formed petals rather incurved in form. We offer the following colors: **White Branching, Shell Pink Branching, Rose Branching, Purple Branching, Crimson Branching, Lavender Branching and Mixed Branching.** Each, Pkt., 10c.

Crimson Giant—A new variety of the branching type seldom less than 5 inches across carried on extra long stems; color rich blood crimson and full of fire. Pkt., 15c.

Pink Beauty—Another novelty of this type, especially fine for cutting. Long, strong stems carrying flowers averaging 4 inches and of a beautiful delicate blush pink. Pkt., 15c.

TYPE OF CREGO ASTERS.

Single China Asters—For decorative purposes these single Asters are becoming very popular. Mixed colors. Pkt., 10c.

Gill's Fancy Mixed—This is a splendid mixture of about 20 reliable sorts and will contain nearly every color known in Asters. There are few better mixtures on the market than this and it is sure to please. Pkt., 10c; 1-oz., 75c.

ASTER COLLECTIONS.

Aster Collection A—1 pkt. each, Crego mixed, King mixed, Branching mixed for 25c.

Aster Collection B—1 pkt. each, your selection from the Crego, King and Branching types. 3 pkts. for 25c.

Aster Collection C—Any 10 pkts., your selection of those priced at 10c. for 75c.

ABUTILON.

(Flowering Maple)

Tender perennial shrubs of easy culture. Generally used for potting inside, but can be started early and used for bedding outside. Mixed colors. Pkt., 15c.

ARGERATUM.

Beautiful annuals, suited for boxes, pots and borders.

Blue Perfection—Large, deep blue; compact growth. Pkt., 10c.

Dwarf White—8 inches high. Pkt., 10c.

Mixed—Pkt. 5c.

AFRICAN DAISY.

Showy annuals from South Africa. Sow seed same as asters or petunias and plant in sunny position. They bloom the greater part of the summer.

Aurantica—Flowers $2\frac{1}{2}$ to 3 inches across, of a rich glossy orange gold, with dark disc and halo. Pkt., 10c.

New Hybrids—A grand new mixture varying in color from the purest white through the shades of yellow and orange to rich salmon shades, many being zoned with these colors around a black disc. Pkt., 20c.

AGROSTEMMA.

(Mullen Pink)

Free flowering perennial of easy culture. Blooms the first season if started early. Foliage silvery white the blooms are single and of a rich crimson color. Pkt., 5c.

AQUILEGIA.

(Columbine)

Popular hardy perennials. Can be started inside or in the open. When large enough to transplant move them to permanent places. Blooms seldom start until second year.

Long Spurred Hybrids—Extra long spurs. Shades and combinations of blue, white, pink, yellow, orange and scarlet. Pkt., 15c.

California Hybrids—Long spurred flowers in orange and yellow shades. Pkt., 10c.

Coerulea—Violet blue and white combinations. 2 feet. Pkt., 10c.

ALYSSUM.

Sweet Alyssum, Maritimum—Hardy annual, blooming with white flowers in early spring. Trailing habit. Pkt., 5c.

Little Gem—Of dwarf compact habit; about four inches high with white blossoms. The best sort for edgings. Pkt., 5c; $\frac{1}{2}$ -oz. 30c.

Lilac Queen—Dwarf compact habit; flowers deep lavender lilac. Pkt., 10c.

AMARANTHUS.

Brilliant foliage annuals growing 3 to 5 feet high. Do best in a hot, sunny location.

Candatus—Blood Red, drooping. Pkt., 5c.

Sunrise—The most brilliant Foliage bronzy crimson, each branch tipped with bright, scarlet carmine leaves. Pkt., 10c.

Tricolor—Leaves red, yellow and green. Pkt., 5c.

ANCHUSA.

GILL'S WHITE—We have succeeded in producing a strain of Droymore perennial Anchusa with white flowers, this being the first yet originated that we have knowledge of. The flowers are just as large as the blue and the plants are perfectly hardy. The great value of this flower comes from the contrasts that can now be secured by planting them with the blue or mixing them with blue Anchusa.

This strain is not yet fixed and this seed will produce various colors, shading from pure white to blue. Pkt., 10 seeds, 35c.

Dropmore Variety—Splendid hardy perennial, easily started from seed. Grows 3 to 5 feet high, covered with rich gentian blue flowers in abundance during June and July. Pkt., 15c.

ARCOTIS.

(African Daisy)

Splendid cut flower growing about 2 feet high. Daisy like flowers of pure white on upper portion of petal, reverse, pale lilac blue. Blooms during late summer. Pkt., 10c.

BALSAM.

Hardy annuals growing one to two feet high. Plant inside or in hotbed in March. Plant out after danger of frost is over.

Pkt., 10c.

BEANS, SCARLET RUNNER.

A fine climber for porch or trellis.

Pkt., 5c; $\frac{1}{2}$ -lb., 40c.

BELLIS OR DOUBLE ENGLISH DAISY.

A favorite perennial plant for bedding. Blooms early in the spring.

MONTROSA DOUBLE MIXED—This giant type of daisy far excels the old type, the flowers being much larger and the stems longer. Pkt. 20c.

Double Mixed—All colors. Pkt., 10c.

BRACHYCOME.

Swan River Daisy—Free flowering plants, 9 inches high, covered through the Summer with small white or blue flowers. Pkt., 5c.

CANNA SEED.

Soak seed in warm water until they show signs of swelling and plant in hot bed. Transplant after danger of frost is over. It is very interesting to grow them, as new sorts are originated from seedlings. Pkt., 10c.

CALENDULA, POT MARIGOLD.

The old fashioned marigold, splendid for borders. A hardy annual that blooms from early to late.

Meteor—Large double yellow, petals striped with orange. Pkt., 10c.

Sulphur Crown—Pleasing sulphur color, double. Pkt., 5c.

Double Mixed—All colors. Pkt., 5c.

Orange King—Large double flowers of a dark orange red. Pkt., 5c.

CALLIOPSIS.

Showy annuals, of easy culture, blooming all summer. Sow in April where they are to bloom.

Crimson King—Crimson garnet. Pkt., 5c.

Golden Wave—Golden yellow with brown centers. Pkt., 5c.

Coronata—Large pure yellow flowers, excellent for bedding. Pkt., 5c.

Nigra Speciosa—Grows 2 feet high; flowers rich reddish maroon. Pkt., 5c.

Choice Mixed—All single colors. Pkt., 5c.

Double Mixed—Pkt., 10c.

CARNATION MARGUERITE.

There are few flowers which give such splendid results for cut flowers and with their easy culture and quick results they should be more planted.

Separate Colors—In scarlet, white, rose, at 10c per pkt.

Giant Marguerite Mixed—This is one of the finest mixtures and produces immense flowers of every hue known in carnations. A border of these will make a grand showing. Pkt., 10c.

CANTERBURY BELLS.

This old fashioned flower is deservedly becoming very popular and is very easy of culture. Plant seed in a box or frame in early Spring and set out in the position you wish them to bloom in the coming season. They can also be started by planting seed in the open ground, covering very lightly, and over-laying the bed with paper, to prevent the seed from drying out until they have germinated.

Cup and Saucer Bells—The largest and best type, with cup and saucer shaped flowers. We offer these in separate colors as follows: **White, Blue and Pink and Mixed** at 10c pkt.

Medium—(Single Canterbury Bells). The old fashioned type with bell shaped blooms. Offered in **Blue, Rose and White** at 10c pkt. **Mixed** at 5c pkt.

Medium, Double Mixed. Pkt., 10c.

Peach Bells Mixed—Peach Bells are a true perennial and one of the best of the bell-flowers. Blue, white and purple, mixed.

Pkt., 10c.

CANDYTUFT.

Sown in the Fall, will flower in early Spring; sown in April will bloom in June. Hardy and easy of culture.

Empress—Finest white. Pkt., 10c.

Lavender—Delicate rose lavender Pkt., 10c.

Carmine—Bright carmine rose. Pkt., 10c.

Crimson—Rich deep shade. Pkt. 10c.

Little Prince—Very desirable for borders or edgings, also boxes and tubs. Pkt., 15c.

Mixed—All colors. Pkt., 5c.

CASTOR BEANS.

Highly ornamental plants, satisfactory for massing or as center plants for beds. Offered in mixture. Pkt., 5c; oz. 20c.

CELOSIA PLUMOSA.

Thompson's Superb—Of pyramidal growth attaining a height of a little more than 2 feet and producing graceful, feathery plumes of the most brilliant crimson. In sunlight the rich color of the flower spikes is beautifully contrasted with the bronze-colored foliage. Pkt., 10c.

Thompsoni Magnifica—Similar to the preceding except in color, which vary in the most magnificent shades, ranging from the clearest yellow to the darkest blood-red. Pkt., 15c.

Golden Plume—Bright, golden - yellow plumes. Pkt., 10c.

Childsi or Chinese Wool Flower—Produces large heads of rich crimson, resembling certain silky wool materials. Plants strong and hardy, growing about 2 feet high. Useful for beds, also for cutting and drying. Pkt., 15c.

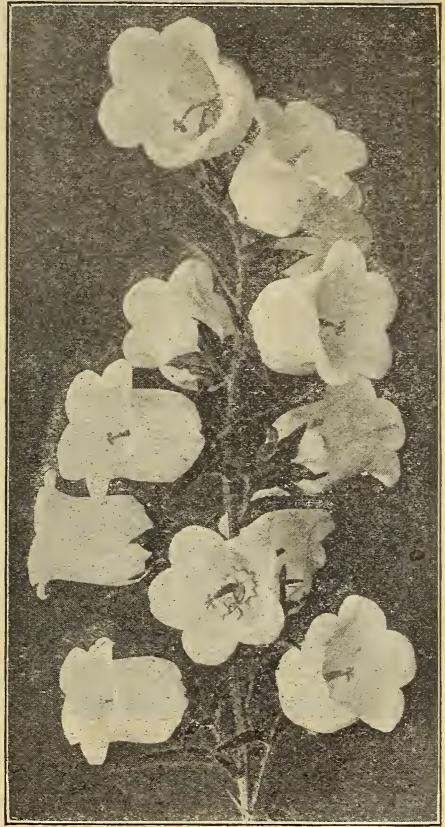

CELOSIA CRISTATA.

(Cockscomb.)

Free-blooming annuals, growing best in rather light soil, not too rich; make grand border plants and are attractive for pots. Seed can be sown under cover in early Spring and planted out in May, or may be sown out of doors in May.

Empress—Combs of colossal proportions; they have been grown measuring 45 inches from tip to tip; rich crimson.

Pkt., 10c; ¼-oz., 50c.

CANTERBERRY BELLS.

(For Plants see Perennials.)

CENTAUREA.

Royal Sweet Sultans—Beautiful, sweet-scented, artistic flowers, borne on long stems. Fine cut flowers. Sow early in Spring. **Finest Mixed.** Pkt., 5c.

White Leaved Centaures (Dusty Miller.)—Fine for beddings, vases, hanging baskets, pots, etc. Foliage silvery white. Hardy perennial, easily started from seed. Two varieties mixed. Pkt., 15c.

CHRYSANTHEMUM.

Double Mixed—Annual type with yellow and white shades. Pkt., 5c.

Single Mixed—Annual mixture of many colors. Pkt., 5c.

CLARKIA.

Valuable annuals, growing 2 to 2½ feet tall. The leafy branches covered with double flowers are fine for cutting. Easily grown.

Scarlet Queen—Orange scarlet. Pkt., 10c.

White Prince—Fine white sort Pkt., 10c.

Salmon Queen—Salmon Pink. Pkt., 10c.

Purple—Very striking. Pkt., 10c.

Orange—Pretty orange shade. Pkt., 15c.

Double Mixed—All shades. Pkt., 5c.

COREOPSIS.
(For Plants, see Perennials.)

COREOPSIS.

Lancelata Grandiflora—One of the easiest of all hardy perennials to grow, blooming the first year from seed, if sown early. Large showy, bright yellow flowers produced freely from June until frost. A splendid cut flower. Seed of our own growing.

Pkt., 5c; $\frac{1}{2}$ -oz., 25c.

CORNFLOWERS CENTAURIA CYANUS.

The common Bachelor's Button.

Single Mixed—All colors. Pkt., 5c.

Double Mixed—Various colors. Pkt., 5c.

Double Blue—A large flowering semi-double sort especially fine for cutting.

Pkt., 10c.

Double Pink—Large double pink. Pkt. 10c.

Single Blue—Large bright blue. Pkt., 5c.

COSMOS.

Hardy annuals which, planted after danger of frost in the open, will bloom in the late Fall when flowers are scarce. Fine cut flowers.

Mammoth Perfection Cosmos—A strain of extra large flowers. Offered in Pink, Striped, Crimson and White at 10c per pkt.

Mixed—All colors. Pkt., 5c.

NEW DOUBLE COSMOS.

After years of patient effort, these grand novelties have been developed and are sure to create a sensation wherever grown. They are not fully fixed in habit but most of the plants come true to their double form. They

mark a new epoch in the development of this desirable Fall flower. The form of the flower is much like the Golden Glow or a mature decorative dahlia. We offer **Double White, Double Pink, Double Crimson, Double Mixed.** Pkt. each 25c.

Double Crested Cosmos—A distinct type with a single outer row of large petals, while shorter petals compose a full double center, giving it the appearance of an Anemone flowered dahlia. This is a very distinct type of cosmos and is an effective cut flower. Offered in the following colors: **Soft Pink, Dark Crimson, Pure White, Flush Pink and Fringed White.** Pkt., each 20c.

Extra Early Cosmos—This early type will bloom in July and August if sown in April. Offered in separate colors. **White, Pink, Crimson, Mixed.** Pkt., 5c.

CUCUMBER WILD VINE.

Quick growing annual climber. Foliage bright green with sprays of white flowers. Pkt., 5c.

COBEA.

Rapid growing annual climber. Should be started indoors in March or planted outside in May.

Scandens—Large purple, bell-shaped flowers. Pkt., 10c.

Scandens Alba—Pure White. Pkt., 10c.

DAHLIA SEED.

Growing Dahlias from seed is very interesting. They should be started like asters and transplanted about May 1st to 20th.

Choice Mixed—This mixture embraces many colors in different types of dahlias. Pkt., 15c.

DELPHINIUM.

(Perennial Larkspur.)

Belladonna—This is the best sort for cutting and is the most ever-blooming type. Usually grows 4 to 6 feet the flowers being loosely set on the stems, are of a beautiful turquoise blue. If started inside and transplanted they will often bloom the first season. Pkt., 20c.

Formosum—Rather dwarf plants, 2 $\frac{1}{2}$ to 3 feet. Rich blue with white centers. Pkt., 15c.

Gold Medal Hybrids—Strong, vigorous plants in various shades of blue or with pink and blue combinations. Pkt., 15c.

DIATHUS, PINK.

Biennials growing about a foot high. Fine for borders.

China Pinks—Mixed, double. Pkt., 5c.

Diadem Pink—Beautiful double flowers; mixed, of various tints of lilac, crimson, purple, to very dark purple with the outer edges fringed and nearly white.

$\frac{1}{4}$ -oz., 30c; Pkt., 10c.

Salmon King—Salmon rose. Pkt., 10c.

Snowball—Large double white. Pkt., 5c.

Fireball—Blood red, good contrast to the above. Pkt., 10c.

Single Royal Pinks—Improved single Japanese. Pkt., 5c.

Finest Mixed—A mixture containing various types of pinks. Pkt., 5c.

HARDY PINKS.

Double Dwarf Clove Pink—Compact growth; early flowering. Possess a spicy clove fragrance. Perennial. Pkt., 10c.

DIGITALIS.

(Foxglove.)

This hardy perennial is deservedly very popular, as it is of the easiest culture. Can be started either inside or outside and transplanted to a permanent place. Offered in **Purple, Rose, White.** Pkt., 10c.

Mixed. Pkt., 5c.

Mammoth Foxglove—(See Cut)—Very odd flowers, the long spikes terminate with an enormous flower, which usually opens first. **Mixed colors.** Pkt., 10c.

ESCHSCHOLTZIA.

(California Poppy)

Hardy annual, sow in open during April.

Single Mixed—All the colors. Pkt., 5c.

Alba—Pure white. Pkt., 5c.

Scarlet—Rich orange scarlet. Pkt., 10c.

Orange—Pure orange. Pkt., 5c.

Rosea—Bright rosy pink. Pkt., 10c.

EUPHORBIA.

Strong growing annuals, suitable for beds and borders.

Variegata—(Snow on the mountains.)—Attractive green foliage, veined and margined white; 2 feet. Pkt., 5c.

Heterophylla—(Annual Poinsetta.)—Habit of plant and foliage resembles the Christmas Poinsettia. Leaves of glossy green which turn orange scarlet in the summer. Pkt., 15c.

FOUR O'CLOCK.

Well known free flowering favorite that does well anywhere. Give plants 12 to 18 inches of room. **Fine mixed colors.** Pkt., 5c; Oz., 15c.

GAILLARDIA PERENNIAL.

***Finest Mixed**—(See cut.)—This is one of the finest perennials and blooms all Summer and Fall, containing shades of yellow and yellow with red halos. Pkt., 10c.

GEUM.

Mrs. Bradshaw—The best variety of this wonderful perennial. The flowers are over two inches in diameter and semi-double. Color brilliant scarlet and produced on long stems, an exceptional cut flower and easily started from seed. This is destined to become one of our most popular flowers. Blooms in June and July. Pkt., 15c.

GODETIA.

Pretty free flowering annuals growing 18 inches high. They do best in rather poor soil.

Duchess of Albany—Pure white. Pkt., 5c.

Dwarf Mixed—All the colors. Pkt., 5c.

Dwarf Crimson Glow—The best Godetia to date. Dwarf compact plants covered with a mass of glowing crimson flowers. Pkt., 10c.

Rosamond—Similar to above with large shell pink flowers. Pkt., 10c.

Gloriosa—Dwarf, large satiny flowers of blood red. Pkt., 10c.

GAILLARDIA GRANDIFLORA.

(For Plants, see Perennials.)

GOURDS, ORNAMENTAL.

Culture, similar to cucumbers or musk melons.

Fine Mixed—Several sorts in mixture.

Pkt., 5c.

Dipper—Very useful. Pkt., 5c.

Hercules Club—Club shaped, 4 feet long. Pkt., 5c.

White Egg Shaped—In size and shape, like an egg. Pkt., 5c.

GRASSES, ORNAMENTAL.

Cloud Grass—Airy and graceful annual, looks like a line of mist when in bloom. Pkt., 10c.

Purple Fountain Grass—Graceful, purple plumes and green foliage. An effective annual for borders. Pkt., 10c.

GYPSOPHILIA, BABY'S BREATH.

Elegans Alba—Fine annual with white blooms, fine for mixing with bouquets. Pkt., 5c; oz., 30c.

Muralis—An annual sort forming mounds of green 8 to 10 inches across and covered with little pink flowers from early season to frost. **Fine for edging.** Pkt., 10c.

Perennial—Once started these will bloom year after year. Pkt., 10c.

HELICHRYSUM.

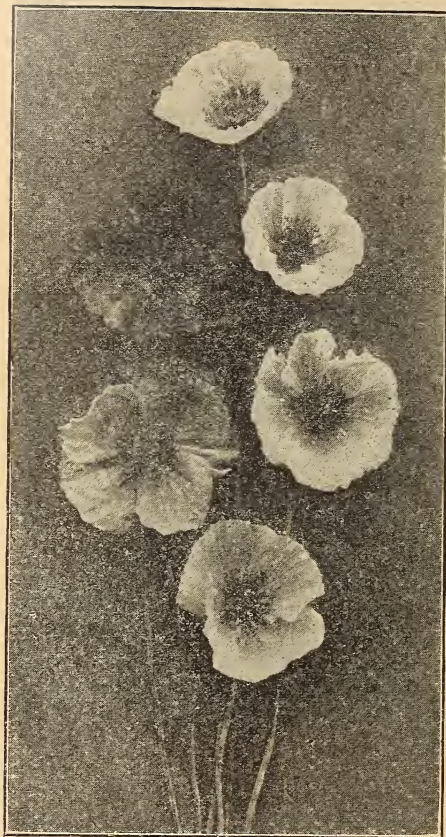

Straw Flower—Double flowers on plants 2 feet high. Fine everlasting flowers to put away for Winter. These bright colored flowers are exceedingly valuable for decorating and can be kept indefinitely.

Offered in **Scarlet, Yellow, Salmon and Mixed.** Pkt., each 10c.

HELIOTROPE.

Start indoors, plant out in May. Half hardy

Lemoines Giant—Double the size of the old sorts. Pkt., 10c.

ICELAND POPPIES.
(For Plants, see Perennials.)

LATHYRUS.
(Perennial Sweet Peas.)

Strong growing, hardy climber, easily started from seed. Continually in bloom and fine for cutting. Offered as follows: **Pink, White and Mixed.** Pkt., 5c.

LAVENDER.

Well known, hardy perennial growing about 3 feet high. Very fragrant. Pkt., 10c.

ANNUAL LUPINE.

Easily grown annuals with long spikes of pea-shaped blooms; two feet. Offered in **Blue, White, Pink.** Pkt., 10c.

Mixed— Pkt., 5c.

Perennial Lupine—Hardy plants with spikes three feet in height, blooming in May and June. Mixed colors. Pkt., 10c.

LOBELIA.

Desirable for pots edges or hanging baskets.

Crystal Palace Compacta—Best dark blue. Dwarf compact plants. Pkt., 10c.

Speciosa—Dark blue flower and dark foliage. Trailing. Pkt., 5c.

White Gem—Snow white. Pkt., 10c.

Mixed Dwarf—All colors in dwarf varieties. Pkt., 5c.

HOLLYHOCK.

This old fashioned flower is taking well for back-ground effects. A hardy perennial, blooming very little the first year.

Double Sorts.

Separate Colors—In orange, maroon, red, rose, salmon rose, white and yellow. Any color. Pkt. 10c.

Choice Mixed—All colors, double. Pkt., 5c.

Allegheny Mixed—Single Fringed bloom. Pkt., 10c.

Single Mixed—All colors. Pkt., 5c.

IBERIS.

(Hardy Candytuft.)

Mixed—Easily grown from seed. Splendid bedding plant forming a solid mass of bloom 1 foot in height and diameter. Pkt. 10c.

KOCHIA, STANDING CYPRESS.

An easily grown annual, which sown thinly in the Spring forms a cypress like hedge of the most lively green, of perfect symmetry; by mid-summer attains a height of 3 feet. In the Autumn the whole plant becomes a deep red. This is a very useful plant and should be more grown. Pkt., 10c; $\frac{1}{4}$ -oz., 25c.

LARKSPUR ANNUAL.

Hardy annuals growing two or three feet high; splendid for beds or cutting.

Offered in **Double White, Double Rose, Double Crimson, Fancy Double Mixed.**

Pkt., 10c.

Choice Mixed. Pkt., 5c.

LINUM.

(Blue Flax.)

Hardy perennial easily grown from seed; height two feet; very effective in beds or borders and one of the showiest blue flowers grown. Pkt., 10c.

LYCHNIS.

(Jerusalem Cross.)

Easily grown from seed and will bloom the first year. Beautiful heads of scarlet flowers on stems two feet high. Pkt., 10c.

MARIGOLD.

Hardy annuals of easiest culture.

Dwarf French—Fine colors, mixed, very double; one foot. Pkt., 5c.

Tall French Mixed—Double. Pkt., 5c.

Gold Striped—Brownish red, striped golden yellow. Pkt., 5c.

Legion of Honor—Dwarf compact plants, 9 inches tall. Flowers single yellow, spotted with crimson velvet. Pkt., 5c.

African Varieties.

Pride of the Garden—Immense golden yellow flowers, densely double, compact plant 15 to 18 inches high. Pkt., 10c.

Large African Mixed—Double, orange and lemon. Pkt., 5c.

Orange Prince—Large double, deep, rich, golden orange. Pkt., 10c.

Lemon Queen—Large, double flowers of soft lemon color. Pkt., 10c.

Dwarf African Varieties.

Dwarf Lemon, Dwarf Orange and Dwarf Mixed. Pkt., 5c.

MIGNONETE.

Keep up a succession of flowers by sowing in April and July.

Salmon Queen—Strong, robust habit, with fine spikes of salmon red flowers, intensely fragrant. Pkt., 10c.

Defiance—Extra large spikes, 15 to 18 inches long, deliciously fragrant. Pkt., 10c.

Goliath—Strong compact plants, giant trusses of brilliant red. Pkt., 10c.

Golden Machet—Massive spikes of golden yellow. Pkt., 10c.

Mixed—Various colors mixed. Pkt., 5c.

MORNING GLORY.

Climbing Mixed—All colors, 15 feet. Pkt., 5c.

Dwarf Mixed—All colors, 1 foot. Pkt., 5c.

MYOSOTES, FORGET-ME-NOTS.

Hardy perennials succeeding best in shady locations. Will bloom the first year if sown early.

Robusta Graniflora—Large, bright blue flowers. Pkt., 5c.

Everblooming Myosotis—Large clear, blue flowers, blooming from May to Autumn. Pkt., 10c.

Mixed—A mixture of blue, rose and white shades. Pkt., 5c.

OENOTHERA.

(Evening Primrose.)

Large golden yellow flowers, easily grown from seed. Do best in sunny position. Pkt., 10c.

NASTURTIUMS.

Sow in April in rows, thin to 2 to 3 inches apart.

Dwarf Varieties.

Bronze—Bronze orange. Pkt., 5c; oz., 15c.

Golden King—Rich, golden yellow. Pkt., 5c; oz., 15c.

King Theodore—Crimson maroon, dark foliage. Pkt., 5c; oz 15c.

Pearl—Creamy white. Pkt., 5c; oz., 15c.

King of Tom Thumbs—Dark scarlet, dark leaves. Pkt., 5c oz., 15c.

Finest Mixed—All colors. Pkt., 5c; oz., 10c; ¼-lb., 45c; lb., \$1.50

Tall Varieties.

King Theodore, Tall—Crimson maroon, dark foliage. Pkt., 5c; oz., 15c.

Orange—Pure orange. Pkt., 5c; oz., 15c.

Pearl, Tall—Creamy white. Pkt. 5c; oz. 15c.

Rose—Ruby rose. Pkt., 5c; oz., 15c.

Jupiter—Giant Yellow. Pkt., 5c; oz., 15c.

Spitfire—Firey scarlet. Pkt., 5c; oz., 15c.

Giant of Battles—Sulphur yellow blotched red. Pkt., 5c; oz., 15c.

California Giants Mixed—All colors. Pkt., 5c; oz., 15c; ¼-lb., 45c; lb., \$1.50

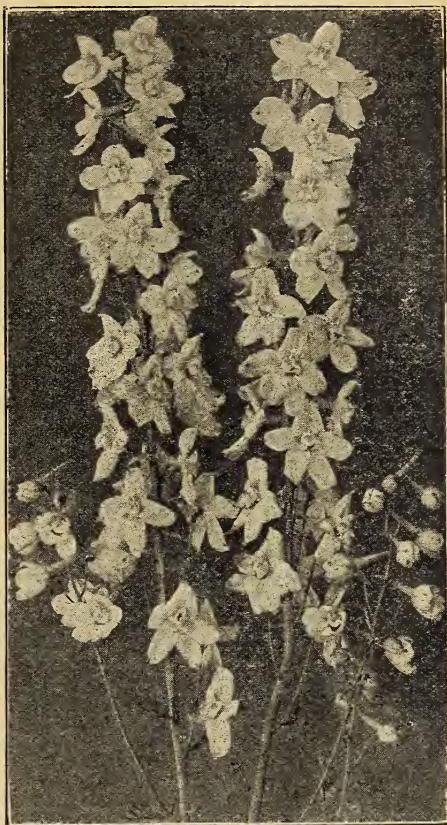

Ivy Leaved Tall Mixed—Pkt., 5c; oz., 20c. ¼-lb., 50c.

NICOTINA, FLOWERING TOBACCO.

Finest Mixed—A splendid mixture of colors. Pkt., 5c.

NIGELIA.

Miss Jekyll—Splendid cut variety; cornflower-blue flowers. Pkt., 10c.

DELPHINIUM BELLADONNA.

(Seed Page 27. Plants in Perennials.)

PENTSTEMON.

Sensation—This takes rank with petunias and phlox as a bedding plant. This strain embraces a wide range of color, including rose, carmine, cherry, pink, lilac and purple. Grows two feet high. Not quite hardy and should be covered in winter. Pkt., 10c.

PANSIES.

For plants see list of perennials.

May be sown early inside or planted in the open in April. Sown in July and August will make good plants for the next Spring.

MADAM STEELE—Giant flower of deep velvety purple. This variety is now so well fixed that nearly all come true to color. Pkt., 25c.

BRONZE GIANTS—Different colors from burnished brass to gold, wonderfully tinged with various shades. This color is very popular. Pkt., 25c.

PANAMA PACIFIC—A huge deep yellow; some with dark centers, some without. A desirable shade well fixed in color. Pkt., 25c.

BLACK GIANT—New shade of jet black. Some of these will come purple, but the majority are black. Pkt., 25c.

IMPROVED GRAND DUKE MICHEAL—The finest and largest all around white pansy in existence. Pkt., 25c.

PANSIES—Continued

IMPROVED METEOR—Medium-sized flowers of wine red. A well fixed strain of this color. Pkt., 25c.

LONG STEMMED GIANTS—Equal in size and variety of color to Gill's Oregon Giant, but owing to careful selection this strain produces blooms on long stems; very desirable for cut flowers. Pkt., 35c.

***Gill's Oregon Giant**—After careful tests, we are convinced that this strain of Pansies produces the largest flowers and the best variety of colors of any strain we know of. If you want the very best and largest pansies plant this mixture. While the seed is more expensive than the common sorts, you will feel well repaid to plant it. Pkt., 25c.

Gill's Giant Mixture—Grown by ourselves from larger flowering sorts. This is a reliable mixture of many good colors. Pkt., 10c.

***Tufted Pansies, Mixed**—While the blooms are small, they make a mass of bloom all summer. This mixture contains a great variety of shades. Pkt., 10c.

PETUNIA.

Defiance Largest Flowering—Flowers often five inches in diameter, fringed, with open throats. Colors varied and indescribable. For size and beauty this is the best strain of Petunias. Pkt., 20c.

Double Giants—Only a portion of these come double, but these are well worth while. Those plants which show the weakest vitality in starting make the best flowers, both in the single and double types. Pkt., 35c.

Single Bedding Petunias.

Snowball—Compact sort with satiny white flowers. Pkt., 10c.

Star Petunia—Compact plants; cherry-red flowers with white center. Pkt., 10c.

Countess of Ellsmere—Pink with white throat. Pkt., 10c.

Blood Red—Mixed—Pkt., 10c.
Pkt., 5c.

PHLOX DRUMMONDI, ANNUAL
PHLOX.

A beautiful annual that may be used for massing, beds, borders or pots. Sow in the open after danger of frost is over.

Select Large Flowering Varieties.

Large Flowering Mixed—Contains a great variety of colors and is sure to please. Pkt., 10c.

Separate Colors as follows: White, Deep Rose, Bright Scarlet and Primrose. Pkt., 10c.

Double Mixed—Better for cutting than the single sorts. Finest colors. Pkt., 10c.

POPPIES.

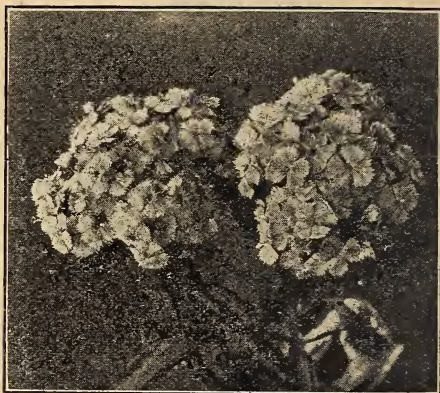

May be sown in the Fall or early Spring. Poppies are easy of culture and very effective flowers.

Single Sorts.

***Gill's Mixed Shirley**—All colors. Pkt. 5c.
Danish Cross—Scarlet with white spot forming a cross. Pkt., 5c.

The Bride—Pure white.. Pkt., 5c.

Admiral—White with band of scarlet around the top. Pkt., 5c.

NEWPORT PINK SWEET WILLIAM

Tulip Poppy—This is one of the finest bedding Poppies we have ever seen. It grows from 15 to 20 inches high and is simply a blaze of bright scarlet tulip-shaped flowers. A splendid sort for bedding or massing. Pkt., 5c.

Chas. Darwin—New single Poppy of rich dark purple with velvety black spot at the base of each petal. Pkt., 10c.

Double Sorts.

Cardinal—Fringed flowers, cardinal red. Pkt., 5c.

Fairy Bush—Elegantly fringed, white, tipped rose. Pkt., 5c.

Shell Pink—Soft sea shell pink. Pkt., 5c.

White Swan—Immense fringed flowers, white. Pkt., 5c.

Carnation. Flowered—Double, fringed, mixed colors. Pkt., 5c.

American Flag—New double Poppy, large and very double, snow white, bordered with scarlet. Pkt., 5c.

Mexican or Prickly Poppy—Plants 2 to 3 feet high, spiny foliage, large flowers in shades of yellow and white. Pkt., 10c.

Giant Yellow Tulip Poppy—Fine for cutting; large, butter-cup yellow flowers. Pkt., 5c.

ORIENTAL POPPIES.

(Perennial)

These are easily started from seed and make a gorgeous display. Very hardy and will last for years. Fine cut flowers.

Oriental—Large, deep crimson flowers, with black blotch on each petal. Pkt., 10c.

Princess Victoria Louise—Large, soft salmon rose. Pkt., 15c.

Perry's White—Grand novelty. White with crimson blotch at the base of each petal. Pkt., 25c.

ICELAND POPPIES.

(Perennial.)

(See cut in perennials). One of the daintiest of all flowers. They form neat fern-like tufts from which the slender flower stems protrude to a height of one foot. Single flowers of crumpled appearance. Offered in mixed shades of orange, white and yellow. Pkt., 10c.

PLATYCODON.

(Balloon Flower.)

Very hardy perennial of easy culture. Grows one foot high. Blue and white mixed.

PORTULACA, SUN PLANT.

A fine hardy annual, doing best in a rich loam or sandy soil. Fine for massing in beds, edging or rock work.

Single Mixed—Containing rose, scarlet, white, yellow, etc. Pkt., 5c; oz., 45c.

Double Mixed—A large per cent come double; in similar colors to the single mixed. Pkt., 10c; ¼-oz., 50c.

PRIMROSE, HARDY.

Japanica (Japanese Primrose)—Bright showy clusters on stems 6 to 9 inches long. Mixed colors. Pkt., 15c.

Vulgaris (English Primrose)—Canary yellow, fragrant. Pkt., 10c.

PYRETHRUM.

Golden Feather—Yellow foliated plant used for edging and bedding. Pkt., 5c; ¼-oz., 20c.

Hybridum—Large flowering, single mixed. Hardy perennials bearing daisy-like flowers in various shades of pink, red and white. A fine cut flower. Pkt., 10c.

Double Mixed—Quite distinct from the single variety. Dense double flowers in various shades. A portion will come single when grown from seed, but in either case they are very pretty. Pkt., 20c.

RUDBECKIA, ANNUAL.

Bicolor Superba—Form a dense bush producing flowers in great abundance. The disc is brown, the florets golden yellow. Fine for cutting. Pkt., 10c.

SALPIGLOSSIS.

Sow indoors for early, or can be sown outside after danger of frost.

Large Flowering Mixed— Pkt., 10c.

Dark Scarlet—A very beautiful flower. Pkt., 10c.

SALVIA.

(Scarlet Sage.)

Sow indoors in March, plant out in May. **Splendens**—Bright scarlet, 3 feet. Pkt. 10c.

Patens—Intense blue flowers. Pkt., 15c.

Fireball (Dwarf Salvia)—Neatly rounded plants, eighteen inches high; bright scarlet flowers. Pkt., 10c.

SCABOSIA OR MOURNING BRIDE.

Sow outside after danger of frost.

Large Flowering Mixed— Pkt., 5c.

Separate Colors—White, Crimson, Black-purple, Rose. Pkt., 10c.

SCHIZANTHUS.

(Butterfly or Fringe Flower.)

New Giant Hybrids—An easy, quick growing annual that should be more planted; also desirable for pots. This is one of the best mixtures to be had and contains a great array of colors. Pkt., 15c.

SHASTA DAISY.

Alaska—The popular evergreen perennial, with single flowers, often 5 inches across, of purest glistening white. A splendid cut flower. Pkt., 15c.

SNAPDRAGON.

An old fashioned flower that has come back into popular favor again. For early flowering, sow seed in the Fall and then set out in the Spring, or the plants may be started in the Spring.

Separate colors as follows: **Giant White, Giant Scarlet, Giant Yellow, Giant Garnet, Giant Pink** at 10c per pkt.

Gill's Superior Mixed—This mixture contains a great variety of colors and will give good satisfaction. Pkt., 5c.

Brilliant—Scarlet, gold and white. Extra fine. Pkt., 10c.

Silver Pink—A very dainty shade of pink. Pkt., 10c.

Gorgeous—Blood red with white throat. Pkt., 10c.

SENSITIVE PLANT, MIMOSA.

A curious annual, its leaves close when touched or if the stem is touched the whole leaf will fall. Can be grown in pots or in the open. Pkt., 5c.

STOCKS.

A popular biennial. Fine for bedding or pot culture. May be started early inside or plant seed in the open after danger of frost is over. The varieties offered below will produce about 90 per cent double flowers.

Improved Large Flowering Ten

Week Stocks.

These are a superior large flowering strain. **Separate Colors** as follows; **Blood Red, Pink, Purple**, at 10c per pkt.

Large Flowering Mixed—A grand mixture of double flowered sorts. Pkt., 10c.

SUNFLOWER.

New Miniature Mixed—Numerous small flowers. Pkt., 10c.

Chrysanthemum Flowered—Double, rich golden yellow. Pkt., 5c.

Single "Stella"—Beautiful single flowers of golden yellow, each with black disc. Effective cut flowers. Pkt., 5c.

Red Sunflower—Plants grow 5 to 8 feet tall and the flowers range from 2 inches to a foot across. The color varies greatly, some being chestnut red throughout, while others are red tipped with yellow, still others are yellow washed with red; a portion of the flowers will come pure yellow.

Pkt., 10c; 3 pkts., 25c.

SWEET WILLIAM.

This hardy biennial is one of the best cut flowers and is again coming to the front.

Separate Colors as follows in single sorts: **White, Crimson, Maroon and Scarlet** at 10c per pkt.

Single Mixed—All colors. Pkt., 5c.

Double Mixed—Quite a portion will come double. Pkt., 10c.

Newport Pink (See cut)—This beautiful, new Sweet William is of distinct color, being salmon rose or watermelon pink. The flowers are borne in massive heads and make very effective cut flowers. Pkt., 15c.

Scarlet Beauty—A very striking deep scarlet variety. Everyone should try this grand variety. Pkt., 15c.

SWEET PEAS.

Culture.

Sweet Peas are today considered one of the leading flowers. They can be planted in trenches in November, covering lightly with soil or pulverized manure. This method will produce flowers in June. Spring sowings should be made as early in the Spring as the ground can be worked, even February is not too early. The Spencer type is by far the best, being large, free blooming and more artistic.

Margaret Atlee—Claimed to be the best cream-pink yet introduced. Rich pink on cream ground, softly suffused with salmon in the standard, while the wings are of pinkish rose and salmon. Base of standard and wings are suffused with buff primrose.

Pkt., 10c.

Floradale Fairy—Grand duplex primrose novelty. Considered the largest and richest colored of all the cream colored varieties. Many of the blooms come double or duplex, making a very effective cut flower.

Pkt., 15c; $\frac{1}{2}$ -oz. \$1.00

Cherub—The best of the picotee-edged sweet peas. Ground color, deep rich cream, daintily edged with bright rose. Gigantic flowers on long stems, generally borne in fours.

Pkt., 15c; oz., \$1.00

Robert Sydenham—This new pea is a glowing orange self, without cerise or pink. Burpee says the "nearest approach to yellow yet seen." Usually produced four to the stem.

Pkt., 15c; oz., 75c.

Firey Cross—In this grand Sweet Pea we have a new shade of red; by some it is called Turkey Red and Military Red, but it really is a bright red orange suffused with salmon. It is claimed this variety will not burn even on the hottest days.

Pkt., 20c.

The President—Immense flowers of glowing scarlet self, carried on strong stems, usually in fours. It has been termed "the brightest color in Sweet Peas" and does not burn. It is far ahead of anything in the orange scarlet class.

Pkt., 20c.

Miriam Beaver—One of the finest Sweet Peas we ever grew and it was a sensation at the Sweet Pea shows. The color is a soft shell pink on cream ground, lightly overlaid with soft hydrangea pink. The flowers are large and beautifully waved.

Pkt., 10c; oz., 60c.

Wedgewood—The truest light blue Sweet Pea. The large waved flowers are usually borne in sprays of four on good stout stems. This is a wonderful acquisition.

Pkt., 10c; oz., 50c.

King White—On account of its "glistening, immaculate pure whiteness" it is now considered the best of all white Sweet Peas. Flowers are of great size, carried four to the stem and are of great substance.

Pkt., 10c; oz., 50c.

Rosabelle—A very large, rich bright rose colored variety.

Pkt., 10c; oz., 40c.

Dobbies Cream—The best cream colored variety. Large waved flowers of fine deep cream.

Pkt., 10c; oz., 40c.

Royal Purple—A true rich royal purple that holds its color. Flowers of large size on strong plants.

Pkt., 10c; oz., 40c.

Illuminator—Rich, glowing cerise salmon suffused with bright orange. Perfect large flowers.

Pkt., 10c; oz., 40c.

Agricola—Pale pinkish heliotrope flushed over a white ground with distinct wire edge of dark heliotrope. Large waved flowers.

Pkt., 10c; oz., 40c.

Hercules—Clear pink of large size and true waved form.

Pkt., 10c; oz., 40c.

Barbara—Beautiful large self-colored salmon. Try this with Dobbies cream; they make a fine combination.

Pkt., 10c; oz., 40c.

Vermilion Brilliant—Brilliant scarlet of splendid form. Bold standards beautifully waved.

Pkt. 10c; oz. 40c.

Novelty Collection—We offer 1 pkt. each of the above 17 varieties, worth \$2.10, for \$1.50, postpaid.

STANDARD SORTS.

Prices uniformly 10c per pkt.; oz., 25c.

Collection Offer—We offer one pkt. each of all 15 varieties listed below, worth \$1.45, for \$1.00 postpaid.

Asta Ohn—Charming lavender.

Apple Blossom—Color of apple blossoms.

Burpee's White Spencer—Waxy white of large size.

Capt. of the Blues—Pure purple, margin marbled.

Countess Spencer—Soft rose pink.

Flora Norton—Best light blue.

King Edward Spencer—Deep crimson scarlet.

Mrs. Routzahn—Apricot ground, suffused with delicate pink.

Othello—Rich deep maroon.

Sterling Stent—The best deep salmon color.

***Gill's Progressive Mixture**—This Spencer mixture of our raising will give the best possible results since the seed is acclimated. A general variety of colors are included in the proper proportion.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ -lb., 75c.

Soft Blend Spencers—This mixture fills a long-felt want in Sweet Peas for those who desire a mixture of soft tones. This blend is made by mixing up-to-date Spencers in the following shades: Cream, light pink, white and soft lavender, mixed in the proper portions for the right effect.

Pkt. 10c; oz. 50c.

Contrast Blend Spencers—Orange scarlet and rich cream. Try this for wonderful cut flower effects and also for growing together.

Pkt., 10c; oz., 75c.

Cupid Mixed (Dwarf Sweet Peas)—Form dense mats of thick foliage 15 inches in diameter and 6 inches tall. More adaptable to dry soils than the tall sorts.

Pkt., 5c; oz., 20c.

SWEET PEAS—Continued.

***Gill's Rainbow Mixture**—We feel confident this grand mixture of our own growing contains more shades than any mixture sold. For years we have been securing mixtures from different houses, and growing them together. It contains many Spencer Peas. Visitors who saw them in bloom said they had never seen so many colors in one mixture, nearly 100 different shades being in evidence. We have many fine reports from this seed. Pkt., 5c; oz., 10c; ¼-lb., 25c; lb., 75c; postpaid.

SWEET ROCKET.

An old fashioned hardy biennial, growing from 2 to 3 feet high, bearing fragrant blossoms of white, lilac and purple, about the latter part of May. A long keeping cut flower. Easy to grow from seed. Pkt., 5c.

VERBENAS.

We carry a fine strain of mammoth verbenas which have been improved and selected for years. Sow inside and set out in May or they may be sown outdoors in May and will bloom about August.

Separate Colors as follows: Pink, Purple, Scarlet, White and Blue. Each 10c per pkt.

Mammoth Mixed—Large flowers, all the colors. Pkt., 10c

VINCA.

Ornamental free flowering plants fine for bedding. Sown indoors in May will bloom in August.

Mixed—Pkt., 5c.

Pure White—Pkt., 10c.

WALL FLOWERS.

Half hardy perennials blooming early in the Spring.

Single Mixed—All the colors. Pkt., 5c.

Double Mixed—A fine selection. Pkt., 10c.

Goliath—A splendid single variety; flowers of a rich shining red with black velvety sheen. Pkt., 10c.

Cloth of Gold—Immense single flowers of clear rich golden yellow. Pkt., 10c.

ZINNIAS.

An old fashioned flower much improved and which should be more planted. May be started early inside or planted outdoors in May.

Our giant flowering strain make gorgeous beds. Don't fail to plant Zinnias for they are very popular now.

Giant White—Pkt., 15c.

Giant Orange—Pkt., 15c.

Double Giant Picotee—This grand novelty is a striking beauty. Softer shades of Orange, Flesh, Lemon, Pink and Cerise are tipped with a darker shade giving them the effect of picotee carnations. All colors mixed. Pkt., 25c.

Giant Double Flowering—Mixed. Pkt., 10c.

Giant Scarlet—Pkt., 10c.

GLADIOLUS, AMERICA.

Giant Golden Yellow—Pkt., 10c.

Giant Crimson—Pkt., 10c.

Giant Purple—Pkt., 10c.

Giant Pink—Pkt., 10c.

Large Flowering Mixed—Pkt., 5c.

TARGETES.

Highly scented border plant, dwarf and compact, loaded with bright golden flowers. Pkt., 5c.

THUNBERGIA, BLACK EYED SUSAN.

Rapid growing annual climber, preferring a warm situation, useful for hanging baskets, vases, along fences, etc. Buff white, orange, etc., with dark eyes. 4 feet. Mixed colors. Pkt., 5c; ¼-oz., 25c.

NEW SWEET WILLIAM.

Johnson's Diadem—One of the most striking sorts yet offered. Massive heads, the flowers opening very uniform, color rich maroon with decided white eye. Exceptionally good for cutting. Pkt., 15c.

GILL'S SELECT GLADIOLI.

PRICES given are postpaid. 50 at 100 rate. We offer first size bulbs.

International Mixture —All colors in good mixture07	.40	2.50

CANNAS.

Cannas are very useful for massing in beds where a tropical effect is desired. They should not be planted outside until danger of frost is over. One of the best ways to raise Cannas in this climate is as follows: Dig out the soil from the bed desired to a depth of about 2½ feet, then fill in about one foot of fresh horse manure, loose. Tramp this down and fill in the soil, rounding up the center of the bed. The Cannas can then be planted in such a manner as to produce a mass effect. They should have plenty of water during warm weather. Prices, except where noted, for bulbs or plants, are 20c each; \$2.00 per dozen, postpaid. If required early in the season we send bulbs; later we send plants.

We list here a few of the best Cannas.

Firebird—The best red flowered, green leafed Canna. Immense trusses of flowers, of clear, glistening scarlet. Bulbs or plants. 35c each; \$3.50 per doz.

Yellow King Humbert—A sport of the popular King Humbert, producing large flowers of a beautiful shade of yellow, light-

ly spotted red. Foliage green. Bulbs or plants. 35c each; \$3.50 per doz.

Allemania—Dark salmon with golden marking; green foliage; 6 feet high.

King Humbert—Large flowers produced in giant trusses; a brilliant orange scarlet with red markings; foliage broad and massive, of a rich coppery bronze; 5 feet high.

WAR AND FLOWERS.

"How about flowers? Does it not seem as if these beautiful ornaments were among the non-essentials to be cast aside at this time? If the world is upset is there any place for flowers? I believe that the times of stress and sorrow that lie before us need all the cheer and uplift that flowers are so well fitted to render. The delight in beautiful flowers is the only human joy which may never be carried to harmful excess, which never degrades those who partake, however freely, of its ecstasy. Did you ever hear of anyone getting drunk on a bunch of flowers? Did you ever know of a man who could not go to work the next morning because he bought a dollar's worth of flowers the night before?"

Shallow people say we must get rid of flowers now. They do not know or realize the wonderful power of these lovely messengers of comfort and cheer. They vastly underestimate the good that flowers can do in lifting the hopes of the sick and comforting those who are sad. There will be many weary and worn soldiers returning ere long from the toil and din of the battle front. Of 100 men who go over but two are actually killed and three badly wounded. The 95 that return are nerve-shattered and heart-sick. Shall we have a country bare and desolate for them to return to? It is not mere sentiment alone, but an actual fact to which physicians and nurses will amply attest that flowers are a distinct therapeutic value. By all means, then, let us not destroy these efficiency builders."—J. Horace Mcfarland in a speech at Buffalo, N. Y., Nov. 14

Gill Bros. Blue Ribbon Dahlias.

Won Grand Sweepstakes at National Dahlia Show

We are the largest dahlia growers west of the Mississippi River, and have established a reputation for good, reliable stock that is true to name, and now fill orders for dahlias all over the United States. Our soil produces solid, vigorous bulbs that are, owing to their acclimation is far superior to Eastern stock. We have several letters from Eastern states which claim our bulbs did far better than their own stock of the same variety.

The Dahlia is fast becoming the leading flower. This is due largely to their easy culture, freedom of bloom and great variety of colors and formation. There are no flowers that can equal them for decorative effects.

CULTURE.

We publish a leaflet giving the history, classification and culture of the Dahlia which we will send free to all asking for it and will also include one with each order of Dahlias.

The proper time to plant Dahlias depends considerably upon the soil and location, but generally from April 20th to May 20th is the best season. Too early planting should be avoided, as the tendency is to produce an early season of bloom, thus ripening the plants before the Fall season, the time most desirable for their best display. This does not apply to the conditions along the coast where cool breezes make the Summer a good blooming season. Here the bulbs may be planted earlier than stated above.

The bulbs should be placed about five or six inches deep, on a slight angle, but almost flat, the eye or sprout uppermost. When the sprouts have made a few inches of growth above ground, remove all but one eye, the strongest. The size of the bulb planted is not material, if it has a good eye. For complete culture, get our leaflet.

DAHLIA ORDERS.

Will be filled during April, May and June, but may be sent to us at any time for booking, and will be filled in the rotation received. Orders for dahlias of \$10 or more may select 10 per cent of the amount, extra, in dahlias as a premium.

GILL'S DAHLIA COLLECTIONS.

Since it is impossible for us to gauge the amount of sales upon any variety in advance, we often have a surplus of dahlias left in very good sorts. This enables us to make the remarkably low rates on collections given below. These bulbs will be labelled with their correct name and no two alike, chosen with regard to color; however, they must be entirely our own selection.

No. 5—12 Cactus Dahlias; good standard sorts, \$1.50; 6 for 85c.

No. 6—12 Peony Dahlias, \$1.75; 6 for \$1.00.

No. 7—12 Decorative Dahlias, \$1.25; 6 for 70c.

No. 8—12 Show Dahlias for \$1.00; 6 for 60c.

No. 9—6 Single Dahlias postpaid for 75c.

No. 10—6 Collerette Dahlias postpaid for 75c.

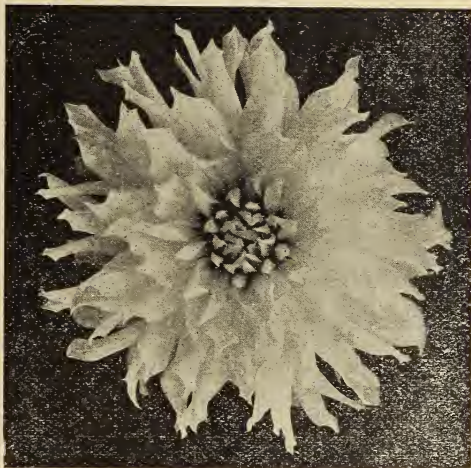

No. 11—12 Mixed Dahlias; New varieties in all classes, \$2.50; 6 for \$1.40.

No. 12—6 Pompon Dahlias, postpaid, 60c.

No. 13—Mixed Dahlias; a general mixture containing all classes; 12 for \$1.25.

GILL'S DANDY COLLECTION.

We offer in this collection a mixture of bulbs which are untagged, but represent good Dahlias, and for those who are not particular to have the names they will give fine satisfaction. These will be put up in advance and no selections other than our own can be permitted. Price for box of 12 good, strong bulbs, \$1.00; 6 for 60c, postpaid.

HYBRID CACTUS—MRS. WARNAAR.

PRICES.

The prices on all Dahlias offered include postage or express, which we prepay.

DAHLIA GUARANTEE.

We guarantee all the bulbs we send out to grow and to be true to name. In case of dahlias not growing they must be returned to us by July 1, of the season when purchased, with our labels attached. Sometimes bulbs are slow to sprout, but if at the end of 20 days they have not done so, remove the earth carefully from the bulb and if still dormant, return it to us; we can then send you another at once; however, if it reaches us too late for planting that season, we will book the order for refilling the season following.

Flowers considered untrue to name should be sent to us by parcel post for verification. Any extras we may include free in orders are not subject to the above guarantee.

DAHLIAS INTRODUCED BY GILL BROS.**OUR 1919 INTRODUCTIONS.**

GARNET KING Peony—A beautiful new flower of giant size and brilliant color. The plants are exceedingly vigorous and free flowering. The color is a bright deep garnet and is far superior to Holman Hunt or Dr. Peary. \$1.50 each.

ARMISTICE Peony—This beautiful large flower of our own origin is one of the best white peony dahlias to date and is remarkably distinct. The flower is of flattened form and the long, narrow, flat petals radiate from a conspicuous yellow pollen center. The flowers are of good substance, usually four rows of petals, and are carried erect on strong stems. Strong vigorous plants which bloom freely. \$2.00 each.

MINNIE RIDER Hybrid Cactus—A very distinct variety of strong growth. The plants are tall and well branched, producing freely large flowers on long, strong stems. We discovered this variety among some chance seedlings and Beloit is its parent. The color is a beautiful rich lavender, a shade much needed in dahlias. It is a long keeper when cut and the stems are excellent. This variety was much admired in our show gardens. Price \$1.50 each.

MARK TWAIN Peony—A dainty new dahlia originated by a Portland enthusiast. The petals are cupped much like peach blossom petals and are a beautiful rich golden yellow overlaid with cinnamon tones. Medium flowers on erect strong stems. A beautiful flower and entirely distinct. This will become a valuable flower for decorations, the cutting qualities being excellent. 75c each.

JAMES C. GILL Peony—This splendid new dahlia is dedicated to the memory of our brother and is one of the finest we have yet introduced. The flowers are of immense size and are carried on exceedingly strong, erect stems. The plants are of medium tall growth and are exceptionally free flowering. Its color is very striking and has created a sensation wherever shown. The large petals compose a massive flower of bright, rich golden orange, generally marked with scarlet. \$3.00 each

WASCO BEAUTY Peony—A remarkable dahlia which came as the result of hybridizing with the popular Geisha. It is a stronger grower than its parent and while much different in form and color, it is equally as striking as that variety. The petals are long and slender, much of the type of Philadelphia, but the flower is much larger, being of immense size. The petals are bronzy red, marked and tipped with rich yellow. The long, slightly incurved and irregular petals compose a distinct flower. \$1.50 each.

AMAZEMENT—Decorative—Visitors at our gardens were amazed to find pure red, pure white and variegated dahlias all on one plant. Some of the flowers were pure white except for one outer row of bright red petals. It seems there are no regular colors for this flower to bloom, but the form is the same with all. The flowers are full double with serrated tips. \$1.00 each.

FRATERNITY—Decorative—A very delicate buff colored flower carried erect on long strong stems. Stems two feet long can usually be cut and they are to be found in plenty. The flowers are about six inches in diameter and of true decorative type. Few dahlias in existence have better stems than this and it will be a popular cut flower. Each, \$1.00.

POMONA—Decorative—One of the best decorative dahlias of its color to date. The flowers are extra large and of pure deep creamy amber throughout the whole flower. The stems are long and erect and valuable for cutting. The main portion of the bloom is composed of the usual decorative petals but the center of the flower is decidedly quilled. Strong, vigorous, free blooming plants, always attractive when in bloom. Each, \$1.50.

MARCELLA—Decorative—This flower out-keeps any dahlia we have ever tried for cutting and will become a favorite with florists. The color is a delightful soft pink, bright and attractive. It is far superior to Delice and will produce three times the mount of perfect blooms. The flowers set directly upright and show to the best advantage. Better stems could not be asked and the color is just what florists require in a pink flower. Each \$2.00.

FLUFFY Peony—A very fluffy, irregular flower of good size on rigid erect stems. The color is a delicate buff or fawn pink. This was one of the freest flowering plants in our grounds and was a general favorite for cutting. Each, \$1.00.

OUR 1918 INTRODUCTIONS.

DISTINCTION—Decorative, 1918. This flower is a decided improvement over that popular variety, Mme. A. Lumiere, as it is larger, of better color and much more vigorous. The plants grow tall and well branched and are a mass of perfect blooms on extra long, erect stems. The ground color is white, marked and tipped with rich violet red. The colors are sharply contrasted and very distinct, making a splendid all around garden and cut flower

CITY OF PORTLAND—Peony, 1918. Beyond doubt one of the grandest dahlias ever introduced, and we believe the largest yellow dahlia in existence. The gigantic flowers average 8 to 10 inches in diameter and flowers 11 inches in diameter were produced last Summer. Color is a clear, deep, rich yellow. While the flowers are of immense size, still they are not coarse, but give a graceful, artistic effect, either in daylight or lamplight. One could not ask for better stems; they are long and strong, holding the flowers upright and showing to full view. As a cut flower they are ideal, having long stems and fine keeping qualities. The plants are exceedingly strong and vigorous and produce their flowers with unusual freedom, in contrast with deep green foliage. This dahlia was originated by one of our customers, Mrs. Ethel Chamberlain, who stated to us that we could not say anything too good for it. We have seen the plants in bloom and give the above description without hesitation. We have secured the entire stock of this grand dahlia and predict for it a great popularity. Our stock is limited and we must ask this year the following prices: Bulbs, \$4.00 each.

GLORIOUS—Peony, 1918. This is one of the finest dahlias we have yet introduced and we are sure our customers will be more than pleased with it. It combines many good qualities and was much admired in our gardens. The stems are of good length and strong, holding the flowers upright. The plants are strong and vigorous and are simply loaded with blooms of giant size, often 8 inches across. The formation is of true peony type and very artistic. The color is a beautiful suffusion in tints of cinnamon, apricot and buff, giving the whole flower a color effect most beautiful. Our stock is limited..... \$2.00

CHALLENGE—Decorative, 1918. Another large, distinct flower that well might offer a challenge on strength of stem, freedom and perfection of bloom. The base of the petals are yellow, but from about half the distance outward to the tips they are heavily marked with deep garnet crimson. As the season advance the shades become lighter, but are at all times very pretty. It is a seedling from the popular Geisha and has the decided markings of that variety, but is perfectly double in form. We have developed a fairly good stock of this valuable dahlia and will introduce it at a low price in reach of all50

MASSIVE—Decorative, 1918. A gigantic flower composed of long, broad, flat petals of great substance and produced on good stems. The massive flowers are often from 8 to 10 inches across and are of a distinct coral orange complexion. It has been the subject of much favorable comment in our gardens, and we feel that it will become very popular. The plant is strong and vigorous, of medium height and very free flowering. It is a sport from that splendid Dahlia, Fireburst, and has all the good traits of its parent, while the color is more popular \$1.25

EPHRIAM GILL—H. C. 1916. Enormous blooms, often 9 inches across, deep amber, suffused orange scarlet. Stems erect and strong. Won sweepstakes at National Dahlia Show \$2.00

ONEONTA—Peony 1916. Very distinct; deep bronze red, marked on edges and tips of petals with yellow. Large blooms on long, strong stems \$1.50

PANAMA—Peony 1916. Enormous, deep golden yellow blooms often 9 inches across50

BRILLIANT—Show. 1916. Erect habit to plants and stems; color brilliant firey scarlet25

Richard M. Buttle—Peony 1915. Seedling of Geisha but has more erect plants and stems. Color bright golden orange lightly suffused with scarlet50

AUTUMN GOLD—Peony 1915. A great favorite; immense size; color a real Autumn shade35

MRS. HELEN LADD CORBETT—Peony 1915. Beautiful soft pink, faintly tinted lavender. Large flowers borne freely on long stems50

GILL'S NEWPORT—Peony 1916. Fine cut flower; color sweet briar pink with deep rose halo at center25

GILL'S POINSETTIA—Duplex 1914. One of our most popular varieties. Color and shape remind one of the Christmas poinsettia. Color brilliant scarlet with yellow center25

Coquille—Decorative. Immense, deep lemon yellow flowers on erect plants and stems20

Gearhart—Decorative. Sturdy, upright plants and stems; ivory white, suffused yellow veined lavender15

Tillamook—Show. Immense quilled flowers of delicate blush, deepening to rose at tips20

Molalla—Show. Large ball shaped blossoms of lemon yellow; tipped white15

Netarts—Show. Extra fine variegated sort; white, dotted and penciled with purplish crimson15

OREGON BEAUTY—Hybrid Peony. This flower has won a national reputation. Immense flowers of bright firey scarlet, overlaid with a golden sheen. Fine keeping cut flowers35

DAHLIAS INTRODUCED BY GILL BROS.—Continued.

MT. HOOD—Decorative. The whitest of all dahlias. Large flowers on strong, erect stems. Beautiful deep green foliage	35
Yellow Beauty—Large blooms of deep golden yellow on strong, erect stems	15
Multnomah—Decorative. Center yellow, shading to orange, tinted with rose. Large, heavy	15
J. J. JOHNSON—Free flowering; rich maroon, often marked with garnet and carmine	25

Gill's General List of Dahlias.

CACTUS AND HYBRID CACTUS.

Explanation—Those varieties in our list which are capitalized are the newer introductions. Previously we have made a separate list of novelties, but we believe that this system will be more convenient and less confusing. H. C. indicates Hybrid Cactus; these have broader and more massive petals. We have numerous other varieties which, for lack of space, we do not list; but if there are any other varieties you wish, please write us, as we may have them. The list we have represents the world's best Dahlias.

ALABASTER—New English 1917 novelty. Flowers of large size, purest white and incurved form. Sturdy dwarf plants with long erect stems. Claimed to be the finest white cactus	\$1.50
ALDERMAN—New 1917 English novelty. Color, golden orange at base, deepening at points, with deeper reddish tints on unopened petals. Free flowering and has good stems	1.50
ALEX KENNEDY—New English 1917 novelty. A giant flower on the type of the F. W. Fellows, with deep crimson color throughout. Often 9 inches across and carried erect on long strong stems	1.50
Amazona—A large free-blooming dahlia, amaranth red suffused with purple20
Armentine Deslines—H. C. Creamy yellow, suffused and tipped violet rose. Extra fine; stems strong35
Arthur Pickard—Beautiful salmon-pink, long incurved petals, good stems35
A. R. PERRY—1916 English Novelty. Large bold flower, with tubular florets of old rose tipped with gold, with golden sheen at base. Long, narrow incurved petals of the truest cactus form75
ATTRACTION—H. C. Large, elegant flowers of clear lilac rose, strong stems	1.00
AUBURN BEAUTY—Large; light bronze red, passing to yellow center50
Australian—A brilliant rich purple, large flowers on good stems35
AVIATOR GARROS—H. C. Broad, pointed, yellow petals, shading to almost white at tips. Blooms medium-sized on strong stems35
Basalisk—Very large, with incurved petals. Orange scarlet50
Beloit—H. C. Its gigantic blooms are held on exceptionally long, stiff stems and the color is a rich, deep purplish garnet with crimson suffusion. A strong, vigorous grower50
BIANCA—H. C. Carried on erect, stout stems; color delicate pink-lavender75
BIZARRE—New 1917 English novelty. Medium-sized incurved flowers; lower half of petals crimson scarlet and upper half white	1.50
Brittania—H. C. Light shade of salmon-pink, large attractive, good stems20
Brittisher—Large crimson scarlet. Flowers large, stems strong	1.50
BODEKA—An immense flower, much incurved; pleasing shade of pink50
BRESLAU—H. C. Plum color shaded deep carmine, tipped white50
CAMBRIAN—English novelty. Clear salmon, lightening to yellow at the tips; petals incurved; habit and flower stems good50
Candeur—A fine pure white variety; very double, fine stems for cutting25
CENTURION—English novelty. Twisted and interlaced petals of rich glowing crimson-scarlet, rigid stems35
Chipeta—H. C. Mammoth flowers on long erect stems. Pleasing shade, rich amaranth red50
Conquest—Immense flowers of crimson maroon. Strong stems35
Country Girl—One of the best; golden yellow, suffused at tips with salmon rose20
COUNTES BEAUCHAMP—Lovely rich amber; early and free75
Coutness of Lounsedale—A peculiar blending of salmon-pink and amber; very free20
Crepuscle—Large flowers, long petals, pale orange-yellow, shaded fawn25
CRESCENT—1916 English novelty; medium flowers on long stout stems; color golden yellow at base, passing to white, faintly suffused pink	1.50
DIANA—H. C. A gigantic flower, rich crimson with violet reflex	1.00
Diavolo—Striped with yellow, white, rose, chocolate and maroon; good stems25
DOROTHY DURNBACH—H. C. Immense rose-pink flowers on strong stems; fine for cutting	2.00

DOROTHY HAWES—English novelty. Flowers of large size, greatly incurved; clear rosy purple50
Dr. Roy Appleton—Immense; long narrow petals; delicate light pink50
Duchess of Marlboro—Delicate silvery pink, very choice50
Echo—Deep lavender shaded lighter in the center; very free20
EDITH CARTER—Fine cut flower of good size; color yellow, heavily suffused with bright rosy carmine. One of the best cactus Dahlias to date35
E. F. HAWES—English novelty. Flowers large, carried on strong, erect stems; clear salmon-pink	1.00
Electric—Canary-yellow, incurved petals, often white at tips; very striking20
Empress—Large exhibition sort; long, tubular, incurved petals of Tyrian rose35
EPHRAIM GILL—See Dahlias originated by Gill Bros.	3.00
EPEE—Beautiful cerise flowers with long pointed petals; strong stems50
Ethel—Soft pink with white center. A very fine flower.....	.35
ETENDARD DE LYON—H. C. German variety. Immense flowers with curled wavy petals; color rich carmine rose, almost magenta35
Fairy—Pure white, slender, airy petals, gracefully incurved, free blooming25
FALCON—1916 English novelty. Clear yellow passing to reddish bronze at tips; flowers incurved and carried erect on long stems50
Faunus—Soft yellowish buff, shaded red and tipped salmon; large25
FEARLESS—1916 English novelty. One of the largest Cactus Dahlias; the petals long and needle like, compose a flower of great width. Color bright orange, throughout75
Fernand Olivet—H. C. Large, free, maroon with darker center; good, wiry stems20
F. GRAHAM—Immense flower of beautiful gold, shaded deep salmon rose50
Fireworks—Large flowers of golden yellow, striped oriental red25
Fleider—H. C. Large, perfect flowers, of soft lilac; good stems15
Flora—H. C. Free flowering, pure white Dahlias, with broad petals; good cut sort	2.0
Floradora—Early, medium-sized; simply a mass of blood-red flowers15
FLORENCE NIGHTENGALE—Large, incurved flowers of bright scarlet. Free blooming50
DIANA—H. C. A gigantic flower, rich crimson with violet reflex.....	1.00
Diavolo—Striped with yellow, white, rose, chocolate and maroon; good stems.....	.25
DOROTHY DURNBAUGH—H. C. Immense rose-pink flowers on strong stems; fine for cutting.....	2.00
DOROTHY HAWES—English novelty. Flowers of large size, greatly incurved; clear rosy purple.....	.50
Dr. Roy Appleton—Immense; long narrow petals; delicate light pink.....	.50

GIGANTIC—New English novelty. Enormous flowers composed of long, inter-laced petals. Stems not strong. Color pure gold.....	1.00
Golden Gate—H. C. New. Extra large, deep golden-yellow, shaded red; good stems35
GOLDEN WEST—H. C. Decidedly one of the best Dahlias to date. Although larger than the Master Carl, it has the same beautiful color as that variety, but has the added advantage of greater size and strong upright stems. Destined to become a leading variety.....	.75
Gondola—Clear, rosy pink with long, narrow, incurved petals; very free.....	.25
GRAPHIC—Incurved petals, dark purple; distinctly tipped white.....	.50
Gunther—H. C. Free flowering white variety with broad petals.....	.25
Gwendolyn Tucker—Large, incurved blooms, silvery pink; erect stems.....	.50
HELEN DURNBAUGH—H. C. Immense flowers of delicate blush, deepening at the center. This will become a great favorite.....	2.00
HERBERT RABY—New English novelty. Giant flowers, composed of long, narrow, tubular petals, prettily arrayed, not only incurved, but twisted like a spinning wheel. Color deep wine crimson. Fairly good stems.....	.50
High Sheriff—Bronzy-rose, passing to golden-bronze center; a beauty.....	.20
HUGH McNEIL—1916 English novelty. Flowers of medium size, full centers and carried on long, strong stems. Beautiful distinct shade of pink.....	.75
H. Wearing—Long, narrow, straight petals, salmon passing to bright amber at base.....	.20
Indomitable—Deep rosy mauve; long gracefully incurved petals; large.....	.35
Irresistible—Huge flowers, petals incurved and interlaced, yellow suffused with rose.....	.50
Ivernian—Extra large flowers of a beautiful salmon-fawn color.....	.50
JANET CROSS—Large flowers on long, erect stems; color, rich salmon bordered pink and touched with yellow.....	1.00
JENNIE WREN—Extra stout stems; flowers medium; color yellow overlaid with pink25
J. H. Jackson—Brilliant crimson maroon; free flowering; good stems.....	.15
Johannesburg—Monster dahlia, bright gold, with golden sheen.....	.35
JOHN RIDING—English novelty. Sturdy, healthy grower, producing enormous deep, rich, crimson flowers, much incurved and carried on erect stems.....	.50
Jupiter—Very large, yellow base passing to salmon, the whole striped and splashed crimson35
JUSTICE BAILEY—H. C. Immense flowers over 8 inches in diameter; color rich glowing pink, a shade lighter in the center. Stems strong and erect; plants rather dwarf75
KALEF—H. C. This grand Dahlia has become very popular on account of its immense size, strong stems, free flowering habit and its brilliant scarlet color....	.75
Kremhilde—An old favorite, brilliant pink shading to white center.....	.15
Lacemaker—Deep carmine, tipped white, petals long, incurved and twisted.....	.25
Lady Fair—Primrose, tinted pink, long petals, split nearly one-third of their length.....	.15
Lady Swathing—Extra large; pale yellow at center, passing to salmon-pink.....	.35
LAPWING—Fine large blooms of orange shaded red. A high-grade Dahlia.....	.75
LIEUT. ROBINSON—New English novelty, 1917. Very large flower with incurved, twisted and interlaced petals. Color clear ruby with amaranth at tips.....	1.50
LORNA DOONE—Pretty medium-sized flower on good stems; color yellow at base, the greater portion pink, tinted carmine.....	.50
Lurania—Incurved petals; a blending of orange, terra-cotta and cinnamon.....	.15
MAGNIFICENT II—English novelty. Straight florets of great length; flowers often nine inches across. Color deep orange, good stems.....	.50
Marathon—Best purple cactus, large flowers on strong stems.....	.25
Marguerite Bouchon—Large flowers with straight petals, soft rose with white tips.....	.35
MARGUERITE PHILLIPS—English novelty. Pure white florets, incurved and twisted; resembling a chrysanthemum. Stems weak.....	.75
Mauve Queen—Clear mauve flowers, incurved; extra good flower.....	.25

MELODY —English novelty. One of the most distinct flowers yet introduced; incurved petals of clear yellow over half their distance, the balance being pure white. Stems fair.....	.50
MINNIE RYDER —H. C. Lavender. See Dahlias origintted by Gill Bros.....	2.00
MISS JUDD —1916 English novelty. Incurved, claw-like blooms on good stems. Color lemon-yellow at tips and base, tinged and blended with light shades of pink.....	.75
Miss Stredwick —Giant flower, beautiful deep pink, suffused with yellow in center	.35
Modell —Clear waxy yellow, with delicate plum plush over the tips. Good cut sort	.35
MODEL, NEW —English novelty. Of true cactus form, the florets incurve with perfect regularity, color yellow at base passing to a clear pink shade, then yellow tips.....	.75
Mrs. Alfred Dyer —Beautifully incurved, primrose with pink tips.....	.25
MRS. C. COOPER —Outer petals cream, lightly suffused salmon throughout. Petals long and slightly incurved.....	.75
Mrs. C. H. Breck —H. C. Large flowers on good stems. Creamy yellow, passing to rich rose.....	.35
Mrs. Douglas Fleming —We consider this one of the best all-around white castus flowers; very large; petals long and incurved; stems strong.....	.50
MRS. EDW. DRURY —English novelty. Habit and flower stems good. Incurved flowers of large size; color delicate purplish crimson.....	.50
Mrs. Fernand Jeffries —H. C. Deep rich velvety garnet. Broad curled petals.....	.25
Mrs. Freeman Thomas —Salmon pink; early and free flowering.....	.35
MRS. HENRY RANDLE —Incurved flowers of medium size; pale cream changing to rose.....	.50
Mrs. H. J. Jones —Large scarlet, marked and tipped with white; often pure scarlet	.20
MRS. J. C. VAUGHN —H. C. New Holland sort. Flowers often 8 inches across, incurved, irregular florets of bright clear yellow.....	.75
Mrs. Lansdale —Yellow ground color, suffused and tipped deep rose. Strong stems	.35
Mrs. McMillan —Yellowish-white base, passing to purplish mauve at extreme tip....	.25
Mrs. Seale —Attractive deep crimson, tipped with pink, then white at extreme tip....	.25
MRS. T. A. MUNRO —H. C. Giant flowers 8 to 10 inches across and carried erect on long, strong stems. Color amber shading to old gold.....	1.25
MRS. WARNAAR —H. C. New Holland sort. Immense, white flowers, suffused with faint pink; petals incurved and irregular; strong, erect stems. One of the finest Dahlias ever introduced.....	1.25
NARCISSUS —Large flower of rich yellow, generally tipped white. A distinct flower, on strong plants and good stems.....	.50
NEPTUNE —English novelty. Incurved, twisted florets of deep rose-pink, striped with carmine. Extra large on fair stems.....	.50
Nerthus —H. C. Center rich, bronzy orange yellow, passing to carmine-rose tips....	.35
New York —Strong stems. Orange-yellow shading to bronze-salmon; immense size.....	.35
Nibelungenhort —H. C. Immense blooms on stiff stems; old rose with apricot suffusion.....	.60
NORMAN —Immense, erect flowers on strong stems; color bright orange-scarlet. Dwarf habit.....	1.00
Olympic —Large, deep crimson on strong stems; petals incurved.....	.50
PATHFINDER —Long, narrow, incurved petals; color soft pink.....	.75
PATRIOT —Large incurved flowers on long, stiff stems; rich scarlet.....	.75
PIERROT —English novelty. A striking variety; color deep amber boldly tipped pure white. Flowers much incurved and of gigantic size.....	.75
PHENOMENAL —1916 English novelty. Large flowers, so much incurved they form a tangled mass of petals. Color, shades of pale salmon with yellow base and decided yellow tips.....	.75
Phoenix —H. C. Large flowers on strong stems; maroon veined with crimson.....	.35
POMPEII —A remarkable variety, pompian-red with white halo and tips.....	.50
Red Admiral —Large flowers of rich fiery scarlet; long incurved petals.....	.35
RED COAT —Bright scarlet, large flower with twisted petals.....	.50
Rene Cayeux —Rich geranium-red; free flowering early sort.....	.15
Rev. T. M. Jameson —Large; long incurved petals of bright mauve pink, suffused salmon.....	.25
RHEINISCHER FROHSINN —Flowers of large size and splendid form on strong, erect stems; the long, incurved petals are white at the base, but at about one-half of their length they become suffused with carmine rose, giving a cerise effect.....	.60
Rheinkonig —Free flowering white sort; good stems.....	.20
Richard Box —Large, incurved flowers, clear, light yellow. Best of color.....	.50
Rosenymphe —H. C. Broad petals of delicate flesh color, shading to soft rosy white. Splendid cut flowers of medium size.....	.25

RUTH VAN FLEET —H. C. One of the best light yellow cactus to date. Flowers extra large and carried on erect, strong stems. Plants tall and well branched	2.50
Sandy —Golden orange and fawn. Extra good50
SEAGULL —English novelty. Very distinct; color pure white with striking border of crimson around each petal. Stems not strong35
SEARCHLIGHT CACTUS —1916 English novelty. Might be called a yellow form of Miss Stredwick. Incurved flowers of great size50
SENTINEL —1916 English novelty. An ideal flower of large size on strong, upright stems; color mainly deep rose with a disc of white at base of petals75
SIMPLICITY —H. C. New Holland sort. Delicate flesh pink, overlaid lilac; fine flowers on long stems	1.00
Snowstorm —A mass of large, perfect, snow-white flowers25
Southern Belle —Long, incurved petals of garnet maroon; extra large35
Stern —H. C. A standard yellow sort; always popular; good stems15
STERNA —H. C. New Holland sort. Flowers of great beauty; pale sulphur yellow75
SUSSEX —New English novelty, 1917. Exceedingly fine, narrow petals, but they withstand adverse weather better than most varieties. Stem good and colors clear light yellow	1.50
SWEETHEART —Soft coral pink; very pretty50
Sweet Briar —Large flower on good stems; sweet briar pink35
T. G. Baker —One of the best yellow cactus; large, free flowering, long incurved petals20
Thais —H. C. Broad white petals, lightly suffused with soft mauve35
The Imp —(The Black Dahlia). Long, narrow, incurved petals, almost black35
THE LION —Large flower on strong stems; old rose suffused with yellow and salmon50
The Pilot —Deep yellow overlaid with terra-cotta; fine petals; extra free25
THE OUAKER —Incurved flowers; long, narrow petals of flesh pink50
THE SWAN —English novelty. It is predicted this will become the leading white cactus, on account of its perfect form, strong stems and large size65
Thomas Oberlin —Brilliant fiery red; extra large; perfect incurved form20
Thomas Parkin —One of the best orange cactus to date; incurved petals25
Thuringia —Enormous flowers of orange scarlet; good stems; free flowering20
Tokio —Large; ground color silvery-rose, suffused rosy carmine with golden sheen35
TOM LUNDY —H. C. A California variety of immense size, with excellent stems; color bright velvety red	1.00
TOPAZE —1916 English novelty. Very distinct. Base of petals nearly white, changing to shades of magenta, purple and rose, blended. Petals narrow, flowers medium size	1.00
Tressie —Extra large flower of rich crimson; one of the best red cactus35
Trojan —Large, with long petals; yellow with picotee edge of salmon35
TURTLE DOVE —Flesh pink, suffused red50
VALIANT —English novelty. A giant flower of brilliant crimson, carried on strong stems. Long, narrow, incurved petals	1.00
VALPARAISO —Large, distinct flower of a pleasing coral color60
VANGUARD —1916 English novelty. Quite distinct. The long, narrow, tubular petals incurved until they meet over the center of the flower, much like an incurved chrysanthemum. Medium sized, on strong stems50
VILLE DE LYON —H. C. Large flowers on long erect stems; outer petals beautiful light pink with white center50
WACHT AM RHEIN —A German variety of soft pink color with white suffusion50
WALKURE —H. C. Giant German variety, often 8 inches across; sulphur deepening to gold at center	1.00
Walter Degeen —Intense, rich fiery scarlet, suffused with orange. Extra fine25
WASHINGTON —1916 English novelty. Claimed to be the best crimson cactus to date. Flowers very large and much incurved, on long, wiry stems	1.00
W. E. PETERS —English novelty. Crimson scarlet blooms composed of numerous long, narrow petals, so much incurved that they meet over the center. Stems long but not very upright75
White Ensign —Good pure white for cutting; strong, erect stems35
Wm. Marshall —Gigantic blooms of rich orange, with yellow center25
Wodan —H. C. Large salmon-rose, shaded with gold; good cut flower35
Wolfgang von Goethe —H. C. Blooms carried on strong stems. Large, rich apricot35
YELLOW KING —H. C. New Holland sort of great merit. Large flowers on long strong stems; petals wavy; color yellow shading to lighter tips75

GILL'S DECORATIVE DAHLIAS.

ALBERT MANDA —Large light yellow, suffused pink.....	.50
AVALANCHE —Immense, new white decorative; strong grower.....	.50
BALON —Very fine apricot, shaded gold; free blooming; good stems.....	.50
BERCH VAN HEEMSTEDE —Large free flowering yellow sort; first class.....	.50
Bessie Boston —Deep cardinal red with petals divided at tips; strong stems.....	.25
Black Beauty —Large, velvety maroon, almost black; erect stems; free.....	.15
CHARMINSTER —New California variety. Large, massive flowers of a beautiful salmon terra cotta. Very distinct and pretty; stems strong.....	1.50
COLIBRI —One of the best variegated dahlias yet introduced, being extra large, carried on strong stems and the habit of growth tall and well branched. The base of the petals are purple rose edged and tipped nearly half with white.....	1.25

Rosalie—Pretty combination of yellow and red.....	.15
Sunbeam—Crimson scarlet; extra fine.....	.15
Vivid—Rich, bright scarlet; very perfect; good cut flower.....	.15
White Aster—Fine white variety; fringed petals.....	.15
Winifred—White, tipped with lavender.....	.15

GILL'S COLLARETTE DAHLIAS.

We believe they are destined to become very popular, both on account of their great freedom of bloom and their excellence as a good cut flower. Their attractive colors show to wonderful advantage, for they set squarely on top of the long, graceful stems. We urge our customers to get a start of these dahlias. They are very easy to grow.

ARIA —New Holland sort. Regular round flowers of soft rose color, white towards center and with broad white collar petals.....	.75
CANOPUS —Pale lemon yellow with white collar. Extra good.....	.50
DANTE —Purplish velvet crimson, with clear white collar. One of the best.....	.35
Diadem Colletterette —Beautiful rosy pink with white collar.....	.35
GEANTE DE LYON —The largest we have seen and one of the best. Long, erect stems of best habit. Color deep velvety crimson, with white collar.....	.75
HERALD —1917 novelty. Large; soft rosy pink with deeper shadings and white collar.....	.35
JOHN BULL —We consider this one of the best; a huge flower on strong stems; color clear velvety maroon, with yellow disc and white collar.....	.50
MELODY —Excellent Holland production with long stems and starry flowers of violet with white collar.....	.75
Mme. E. Poirier —Deep purple suffused with lighter shades, collar white.....	.20
Mme. Gygax —Bright cochineal-red passing to yellow at tips; long primrose-yellow collars.....	.20
QUEEN BESS —Cochineal-red with pale yellow collar. Large and extra fine stems.....	.35
RIFLEMAN —A large flower on fine stem—rich velvety maroon with white collar.....	.50
RHAPSODY —Holland sort with long stems and starry flowers of deep brownish red, collar yellow slightly marked with red.....	.75
SONATE —Another new Holland sort with starry flowers on good stems. Petals light orange red with yellow collar.....	.75
Souv. de Chabanne —Large, lemon yellow, coral-red markings; collar lemon, tipped white.....	.25
SWALLOW —The first pure white collarette; petals and collar both white.....	.35
TARANTELLA —Holland production. Vivid red, occasionally darker in centers of petal and edged yellow; white collar.....	.75

GILL'S SINGLE DAHLIAS.

Atlas —Yellow buff, shaded scarlet; good large flowers.....	.20
Ami Barrillit —Foliage purplish black; flowers of a rich garnet color.....	.15
CHIEF TIGERTAIL —Very distinct; fawn, spotted and striped maroon.....	.35
DICTATOR —New single variety from Holland. Large, regular flowers; long, straight stems. Color dazzling vermilion suffused with velvety crimson and with yellow center.....	.75
Eckford Century —White, spotted with pink and penciled with crimson.....	.15
Gigantea Alba Century —Best single white; extra large.....	.20
Jack —Brilliant fiery scarlet, base overlaid with golden yellow.....	.20
MRS. JOYSON HICKS —Small flowers on good stems; buff, with crimson halo about center.....	.25
Pink Century —Delicate, soft pink, with lighter markings; very pretty.....	.20
Spanish Century —Large yellow flower, striped with red; good stems.....	.15
Splendid —Crimson marked white. See dahlias originated by Gill Bros.....	.15
SINGLE BETTY —Dwarf; color rosy lilac, with crimson halo about center; small flower.....	.25
UNION JACK —A very striking flower and splendid for patriotic decorations on account of its colors, large stripes of white and red.....	.35

COSMEA FLOWERED OR STAR DAHLIAS.

This new type has rather small flowers, but have ideal stems for cutting and resemble in style of bloom the annual cosmos. Our original stock came from England.

CRAWLEY STAR —Lovely shade of clear rose pink; very effective.....	.35
Lowfield Star —Clear rosy pink.....	.25

SEE DAHLIA COLLECTIONS ON PAGE 38.

EXTRA FINE VALUES AT LOW PRICES.

GILL'S HARDY PERENNIALS.

If you are hesitating about planting flowers owing to the shortage of labor, then plant perennials and they will give you permanent results without much effort.

We now have the most complete list of perennials in the Northwest and can supply your wants with most anything in the hardy plant line. People are just beginning to appreciate the full value of perennials, inasmuch as they offer a strong hardy plant that blooms each year, dispensing with the care necessary in growing annuals. We would be pleased to offer suggestions if you are in doubt as to what you need for your grounds. We have many other sorts besides these offered here, so be sure to write us if you do not see what you want. The Fall season and early Spring are the best times to set out perennials. We supply strong plants that will bloom the first year with proper care. We prepay shipping charges on all perennials at prices given.

	Each	Doz.

BIG VALUE IN PERENNIALS.

See our special collection of perennials on the back cover of this Catalog.
Valuable cut flowers can be had from these.

Gill's New and Standard Roses.

The roses we offer are good, strong plants and have good fibre roots for starting. We guarantee them true to name and will replace or refund on any not coming so. We are not responsible for plants dying after being set out, since plants will be sent out in good condition, and if they do not arrive so, you should notify us at once. We can supply other varieties besides those listed.

NOTE.—Letters after names stand for classes of roses as follows: T., tea roses; H. T., hybrid tea; H. P., hybrid perpetual. Those in capitals are newer sorts.

PRICES.—The prices quoted below are on good 2-year bushes, postpaid.

NEW CAZADERO —A cultivated wild blackberry, the original plant of which was found growing wild near Cazadero. We have not seen it fruited, but it comes highly recommended to us. A berry that stands cultivation, is a strong grower and produces berries with the wild blackberry flavor. 35c each; dozen, \$3.50.			
CORY'S THORNLESS —The claims for this new berry are absolute freedom from thorns, heavy yields and berries of fine flavor. Each, 50c; dozen, \$5.00.			
ICEBERG (White Blackberry)—Berries white, sweet and tender; an excellent contrast to the black berries. Each, 20c; dozen, \$1.50.			

GRAPES.

Concord —Popular, large black grape, sweet	.15	1.50	8.00	.25	2.00	12.00

Worden —Large compact bunches of black fruit	.15	1.50	8.00	.25	2.00	12.00

STRAWBERRY PLANTS—OREGON GROWN.

New Oregon—Large, firm and of fine form. This variety, owing to its vigorous growth and heavy cropping, has become one of the favorites for the Northwest. High flavored fruit of dark blood red color holding well to the center of the berry. The berries hold up well in size through the season and are considered a good shipping variety.

Gold Dollar—Considered by far the most profitable early strawberry. The berries are good shippers; are of large size and dark red color. They are strong, vigorous growers and good yielders. While we like the other berries better for flavor, they certainly are proving the top berry for the early trade.

Clark's Seedling—The berry that has brought an immense trade to Hood River. Medium large firm berries, especially fine for shipping or canning. Prove very adaptable to dry localities.

Marshall—One of the darkest colored strawberries grown, and the color extends to the center of the fruit. A large berry of extra fine flavor and borne on exceedingly strong plants. One of the best all-around berries for market and table use.

Nick Ohmer—A splendid midseason sort. Dark glossy red, firm and of excellent flavor. Extensively grown in California and is being grown by a few growers near Portland with good success.

Magoon—Especially suited to our climate. An immense yielder of large, fine flavored berries. While not rated high as a canning berry, it has few superiors for table use.

Wilson—Popular old variety still hard to beat for canning. True stock.

FALL OR EVERBEARING STRAWBERRIES.

These berries are proving very satisfactory, both for home use and market. The best results can be had by cutting off the first spring fruit and letting the vitality of the plant become established for the later fruits. Where irrigation can be given they are very profitable for market. However, good results can be had by cutting off the first crop and giving careful cultivation to maintain the moisture. There is a great difference of opinion regarding the varieties; some claim Superb to be the best, while others content Progressive is the better.

Superb—Large, round fruit of rich, dark color, glossy and attractive. The berries ripen all over at once and are of good flavor. It is claimed this variety makes the largest fruit.

Progressive—The claim is made that this sort will produce more fruit upon younger plants, but it is not quite so large in size. Good, firm berries of rich red color.

RHUBARD.

New Giant—Immense yielder of large stalks of fine color and good quality. The best market sort to date. Prepaid, 25c each; \$2.00 per doz. By E. of F., 20c each; \$1.50 per dozen; \$10.00 per 100.

Crimson Giant—Large high-colored stems of fine quality. Will produce good rhubarb late into the winter. Large roots, 25c each, \$2.00 per dozen. By E. or F., 20c each, \$1.50 per dozen.

Wagner Giant—Larger than Crimson Giant and has a strong advantage in the fact that it is slow to run to seed. 20c each, \$1.75 per dozen. By E. or F., 15c each, \$1.25 per dozen, \$8.50 per 100.

OUR BARGAIN COUNTER.

Read Before Ordering on this page.

In offering this page of bargains we do so with the idea of encouraging a trial of our various lines and we assure all that these are not makeshift bargains to unload worthless stock, but are genuine offers of the same standard of goods with which we supply our regular trade. All of the goods offered are for prompt delivery, whether conditions being favorable. Owing to the very close price we can send these collections, postpaid, up to and including the third zone only; beyond that, add 10 per cent to the prices. Dahlias will be sent in April.
